STRATEGIC OBJECTIVES

FOREWORD BY THE MAYOR

Section 34 of the Local Government: Municipal System Act, 2000 (Act 32 of 2000), outlines that a Municipal Council must review and/or amend its Integrated Development Plan (IDP) on a regular annually.

This process involves assessing the organization's performance, changes in circumstances, service delivery priorities, and budget priorities to ensure the plan's development objectives remain relevant and achievable.

In order to further the development agenda of the Collins Chabane Local Municipality in accordance with the aforementioned goals, the Integrated Development Plan (IDP) has been reviewed in order to align the resources and to enhance the provision of services to all communities within the jurisdiction. This review process aims to identify strategic

interventions to improve the planning and implementation of the IDP, ultimately strengthening the existing approach.

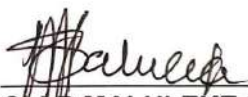

Collins Chabane Local Municipality's Integrated Development Plan (IDP) is a key tool to facilitate strategic, inclusive, and responsive governance. This is done through effective community participation that is essential to this process, as it ensures that the IDP reflects the needs and priorities of local stakeholders. In order to give a cogent strategy for enhanced and improved services for all people of Collins Chabane Local Municipality, this integrated development plan has been aligned to ensure good coordination with all branches of government.

In this reviewed document all IDP phases has been done according to the Municipal Process Plan. This suggests a high level of consistency between the various planning components, such as the District Development Model and Provincial Framework as well as the alignment with national priorities. We believe that the District Development Model will improve program integration into our local communities and expedite the delivery of services. The implementation process involves several key steps, including situational analysis, strategy formulation, operational planning, project proposal development, and project approval.

Collins Chabane Local Municipality has a vision that concurs with the 2030 NDP, and envisage to achieve a spatially integrated and sustainable local economy by that year. This Integrated

Development Plan is the final product of community engagement processes of stakeholders and communities in all the (36) Thirty-six Wards of Collins Chabane Local Municipality.

I want to express my gratitude to all of the stakeholders who participated and were part of us as we compiled this IDP/Budget by providing comments and suggestions on the preliminary version of the document. We would also like to express our gratitude to our internal teams, which include the staff, management, political parties, and all of our council members who contributed significantly to the creation of the 2024-25 IDP and Budget.

CLIR MALULEKE S.G

MAYOR

COLLINS CHABANE MUNICIPALITY

FOREWORD BY THE MUNICIPAL MANAGER

It is a privilege for me to introduce the updated 8th Year Integrated Development Plan (IDP) for Collins Chabane Local Municipality. The adoption of the IDP Framework/Process Plan, which acted as a guide for the review of the Integrated Development Plan, detailed processes and guidelines that were followed for the IDP annual review. The goal of this plan, known as the integrated development plan, is to provide guidance for all council planning, budgeting, and decision-making procedures.

The vital and diversified Collins Chabane Local Municipality must make sure that its growth and

service delivery plans meet the requirements of all of its citizens. This is a major task. This Integrated Development Plan facilitates more collaboration amongst government branches and empowers the local community by acting as a comprehensive roadmap for improving and enhancing the services offered.

The budget was developed with consideration for the important service delivery priorities outlined in the Integrated Development Plan (IDP), including the requirement to preserve the Municipality's financial stability. This budget was created at a period when reports of an inadequate collection rate were made. The municipality has undertaken and will continue to implement many projects as we are proud of our 100% expenditure of grant funds to improve the lives of the communities. We are dedicated to ensuring the implementation of the identified projects and programs detailed in this IDP. We take great pleasure in our market stalls and treat hawkers with great respect as we work to create comfortable and user-friendly market stalls that will make their business more effective and convenient.

The construction of sports centers and stadiums, from green field to fully fledged, with ongoing maintenance and upgrading, is underway. The implementation of the Spatial Development Framework (SDF) will prevent the growth of informal and unplanned settlements, which will improve the social and economic well-being of our people. A key component of our revenue enhancement strategy is the formalization and proclamation of spatial planning.

Projects were initiated with the goal of creating a long-term spatially integrated and sustainable local economy, and some are still in progress. Despite advances, our communities still face challenges such as inadequate water, electricity, and sanitation infrastructure, as well as ongoing unemployment. It is sufficient to state that the just finished 2024-25 Budget and IDP Review Processes have shown the entire extent of our required involvement in meeting our population's pressing requirements.

WhatsApp, Facebook, local radio stations like Phalaphala FM and Munghana Lonene FM, newspaper ads, electronic document provisioning, and community comments remain the primary means of communication. Steering committees, the National Treasury, and CoGSTA,

and Traditional Leaders were all called into meetings on various occasions. It is fairly safe to assume that all IDP and Budget role participants were consulted throughout the planning stage.

We recognize the scope of our jurisdiction as we set out on this journey in the IDP Bus, getting closer and closer to achieving our final destination safely. We will keep working to reach every community. Embracing them in the eventual municipal vision of "A spatially integrated and sustainable local economy by 2030" will enable this.

We would like to use this occasion to express our gratitude to the management of Collins Chabane Local Municipality, the members of the Council IDP Representative Forum, and the general public for their contributions during the IDP compilation process. The completion of this IDP would not have been possible without your contributions.

1.1. EXECUTIVE SUMMARY

The Republic of South Africa's Constitution mandates the government to take reasonable steps, within its available resources, to ensure that all South Africans have enough housing, health care, education, food, water, and social security. To that end, Chapter 5 of the Municipal Systems Act of 2000 mandates that a municipality engage in developmentally oriented planning to ensure that the Constitutional objectives of local government are realized.

The Integrated Development Plan (IDP) is a five-year strategy that aims to improve service delivery and community development. It is evaluated annually as a strategic development plan to guide all aspects of a municipality's development as well as to drive budgeting and resource allocation. The planning process was guided by an IDP Process Plan that was authorized by the council. The IDP, which is evaluated annually, outlines major basic service delivery challenges in regions that have been targeted for fiscal years 2024–2026. It is likewise based on a multi-year approach, allowing the Municipal Council to implement a multidisciplinary financial method.

In addition, the development of the IDP review for 2024–2026 has taken into account national, provincial, and community concerns. The Municipality's Medium-Term Revenue and Expenditure Framework (MTREF), a three-year estimate of revenue and expenditure, is also informed by this document (IDP).

The process aims to achieve vertical and horizontal integration of municipal planned interventions with National and Provincial planning efforts, as well as among various government sectors. The Collins Chabane Local Municipality Integrated Development Plan (IDP) is the principal strategic planning tool for the Municipality, guiding and informing all planning, budgeting, administration, and decision making.

Numerous issues facing the Municipality are prioritized in both the long-term development strategy and the medium-term development strategy. High levels of poverty, crime, unemployment, backlogs in service delivery, capital funding issues, skill shortages, high levels of illiteracy, rural settings, the HIV/AIDS epidemic, and most definitely a lack of proper access to essential services are some of these.

The Collins Chabane Local Municipality (CCLM) IDP is consistent with the Vhembe District Framework and the Process Plan approved by council. The CCLM IDP Process Plan complies entirely with Municipal Systems Act 32 of 2000 without jeopardizing processes, community engagement, or service delivery to the community. This document is thus the Collins Chabane Local Municipality's Final Integrated Development Plan (IDP) for the financial years 2024-2026.

1.2. BACKGROUND

On August 3, 2016, Collins Chabane Local Municipality (CCLM) was established. Section 12 of the Municipal Structures Act (No. 117 of 1998) was followed in its establishment. Parts of the Thulamela Local Municipality and the Makhado Local Municipality were amalgamated to form the new municipality.

Vhembe District Municipality is made up of four Local Municipalities, one of which is CCLM. With a population of about 443 798 according to STATS SA Census 2022. The municipal jurisdiction area is 5 467.216 km² (22° 35' S 30° 40' E) in size. The Municipality has an elected Mayor who is aided by the Mayoral Committee, which is listed below:

Councilors & Traditional Leaders	
Directly Elected	36
Proportional Representative	35
Gazetted Traditional Leaders	14
Total	85

Greater Giyani Municipality to the south, Makhado Local Municipality to the west, and Thulamela Local Municipality to the north encircle CCLM. The Municipality's borders extend to Mozambique in the southeast and Zimbabwe in the northeast, via the Kruger National Park in the east. The municipality is in northern Limpopo Province, around 191 kilometers from Polokwane.

The Municipality is composed of three Municipal nodes (Saselamani, Vuwani, and Hlanganani) and one District node (Malamulele). Two important highways encircle the municipality: The R81 and Giyani, which link the municipality to Mopani and Polokwane. The Municipality is connected to the N1 and Makhado to the north, and to Kruger National Park to the east by the R524 via Thulamela Local Municipality.

1.3. LEGISLATIVE FRAMEWORK

1.3.1. Constitution of South Africa Act (no. 108 of 1996)

The Constitution of the Republic of South Africa (Act 108 of 1996) is the country's supreme law, with the primary purpose of safeguarding human rights and supporting democratic administration. As a result, the Constitution calls for a new approach to governance at the national, provincial, and local levels. The new Constitutional model redefines the links between the three realms of government by replacing the vertical hierarchical tie system with three overlapping planning procedures and sets of plans. The purpose of cooperative governance is to make the best use of finite resources. Section 152 of the constitution of the republic of South Africa outline the objects of local government:

- ✚ To provide democratic and accountable government to all communities;
- ✚ To ensure the provision of services to communities in a sustainable manner;
- ✚ To promote social and economic development;
- ✚ To promote a safe and healthy environment; and
- ✚ To encourage the involvement of communities and community organisations in the matters of local government.

1.3.2. Municipal Systems Act (no. 32 of 2000)

In terms of the Local Government: Municipal Systems Act (no. 32 of 2000), it requires that Municipalities draw up an integrated Development Plan (IDP), a strategic document, which all developments in a Municipal area are based upon. The IDP is the principal planning instrument that guides and informs the municipal budget. It is a plan that does not only concentrate on provisions of municipal services, but also seeks to alleviate poverty, to boost Local Economic Development, eradicate unemployment and promote the to process of reconstruction and development.

Chapter five (5), Section 26 of the Act indicates the core components of an IDP and that such an IDP must reflect the following:

- ✚ The Municipal council's vision for the long term development of the Municipality with special emphasis on the Municipality's most critical development and internal transformation needs.
- ✚ An assessment of the existing level of development in the Municipality, which must include an identification of communities which do not have access to basic municipal services.
- ✚ The council's development priorities and objectives for its elected term, including its local economic development and internal transformation needs.
- ✚ The council's development strategies which must be aligned with any National and Provincial sector plans and planning requirements that are binding on the Municipality in terms of legislation are:
 - A Spatial Development Framework (SDF) which include the provision of basic guidelines for a land use management system for the municipality.
 - The council's operational strategies.
 - Applicable disaster management plans.
 - The key performance indicators and performance targets determined in terms of section 41 of the MSA.

Section 34 of the Local Government: Municipal systems Act (no. 32 of 2000) provides for the annual review of the IDP in accordance with an assessment of its performance measurements and to the extent that changing circumstances so demands. The strategic objectives and targets contained in this document were reached subsequent to extensive systematic and structured internal and external consultation through Public Participation mechanisms with the community and stakeholders within the Collins Chabane Local Municipal area of jurisdiction.

1.3.3. Municipal Finance Management Act (no. 56 of 2003)

In addition to compiling an IDP, it is also a legislative requirement, in terms of the Municipal Systems Act and the Municipal Finance Management Act (2003) that the Municipality's IDP be reviewed on an annual basis. The aim of the review is to ensure that the municipal planning takes into account changing circumstances.

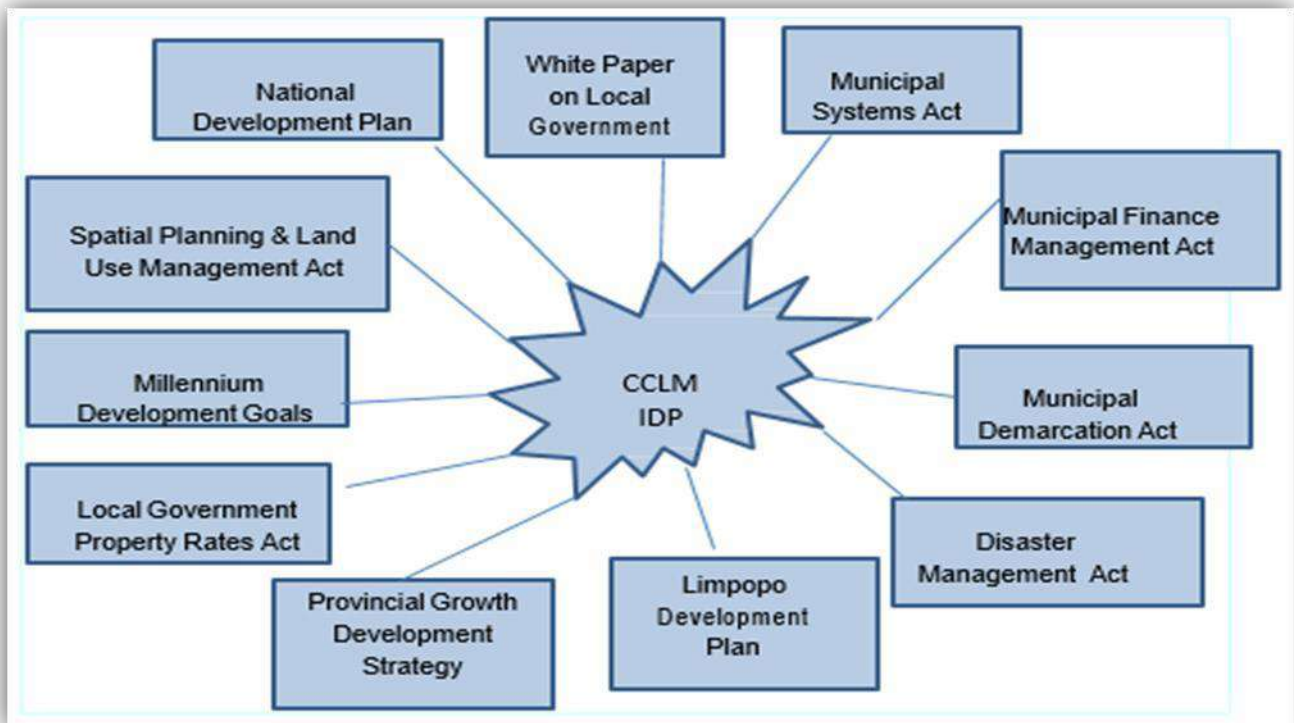

Section 16(2): of the Local Government: Municipal Finance Management Act (56 of 2003)- requires the Executive Mayor to table the budget at least 90 days before start of the financial year / 30 March.

Section 24(1) of the Local Government: Municipal Finance Management Act (56 of 2003) stipulates that approval of Annual budget by Council to be submitted 30 days before the start of the financial year to Council for consideration.

The IDP comprises a package of documents. Other documents and instruments that support the IDP include the municipal budget, the Service Delivery Budget Implementation Plan (SDBIP), various sector plans to support and direct the work of different functional areas of the Municipality, and ward plans.

The IDP process is predominantly guided by various legislations, policies and guides which were carefully considered when the document is compiled. These policies, guides and legislative frameworks include amongst others as outlined in the figure 1 below.

FIGURE 1.5.: Legislative framework

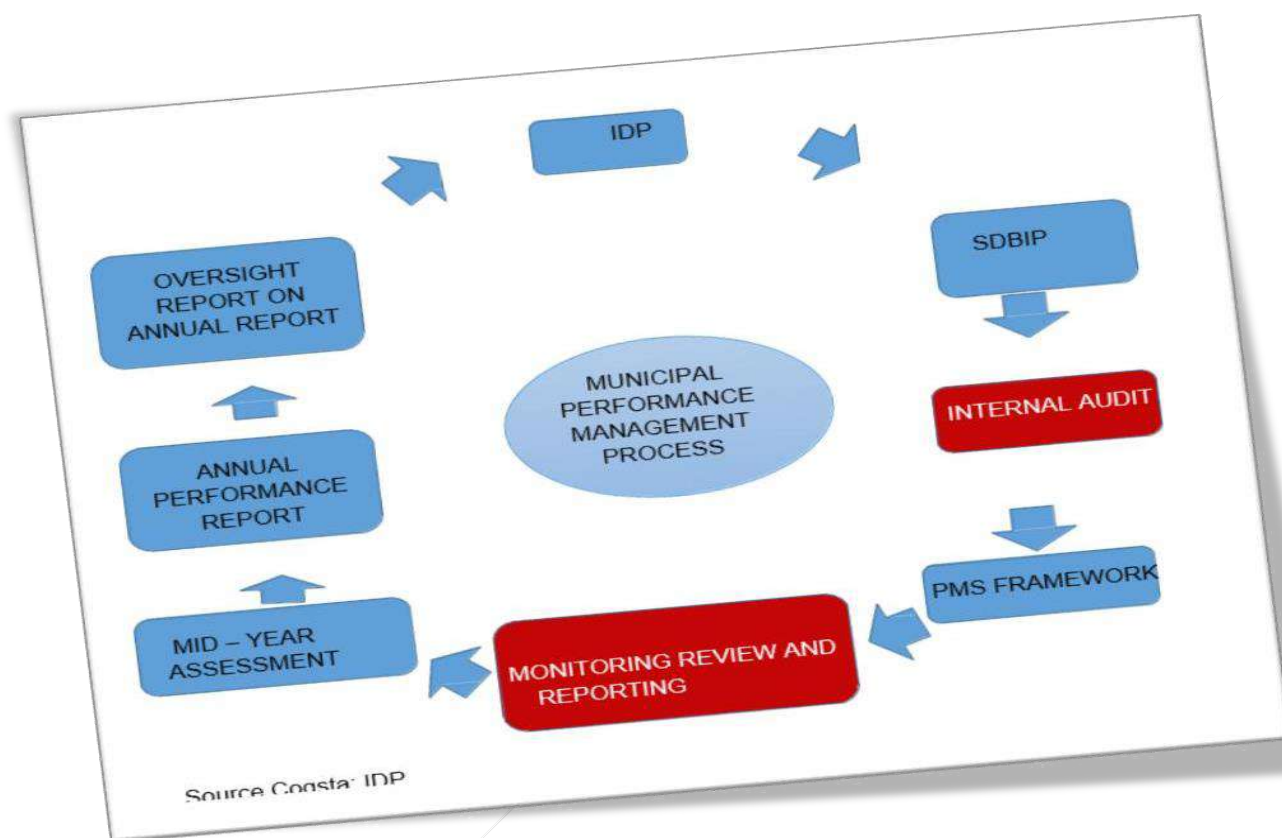

Source: COGHSTA

The IDP outlines an analysis of Collins Chabane Local Municipal area, and current trends and issues which are:

- ❖ The National and regional policy context for preparing IDPs (NDP, LDP etc.).
- ❖ Communities' needs for service delivery as expressed through various engagements.
- ❖ The findings of various medium and long term sector plans, as required by law, supporting and directing the work of different functional areas of the Municipality.
- ❖ The Municipality's overall strategy and implementation for the next five-years, including focus areas, predetermined objectives and activities.
- ❖ The Municipality's Broad Financial Plan and planned allocation of resources.
- ❖ Related monitoring and evaluation activities over the year ahead.

1.6. INSTITUTIONAL STRUCTURES TO DRIVE THE IDP

In order to manage the drafting of IDP outputs effectively, Collins Chabane Local Municipality has institutionalized the participation process thereby giving affected parties access to contribute to the decision-making process. The following structures, linked to the internal organizational arrangements will be established:

IDP Steering committee chaired by the Municipal Manager, and composed as follows: Senior Managers, Managers, Projects Managers, Technicians and Professionals.

IDP Representative forum chaired by The Mayor and composed by the following Stakeholder's formations "inter alia: Collins Chabane Local Municipality and the District Municipality, Governmental Departments i.e. (District, Provincial and National Sphere's representatives), Traditional leaders, People with disability, Parastatals, NGO's and CBO's, Pastors forum, Traditional Leaders, Sector Departments, Youth, CDW's, Ward Committees, Youth Structures, Business Forum, Women's Structures.

IDP Clusters chaired by departmental Senior Managers and composed of experts, officials, and professionals from all spheres of government: Governance and Administration, Economic, Social, Infrastructure, and Justice Clusters.

1.7. IDP PLANNING PROCESS PLAN, ROLE AND PURPOSE

Local development objectives determined through the IDP process serve as the foundation for local governments' budgets, plans, and implementation activities. As a result, the IDP serves as the policy framework for service delivery, infrastructure development, economic growth, social development, environmental sustainability, and poverty alleviation. As a result, the IDP becomes a local representation of the government's plan of action, informing and being informed by strategic development plans at the National and Provincial levels of government.

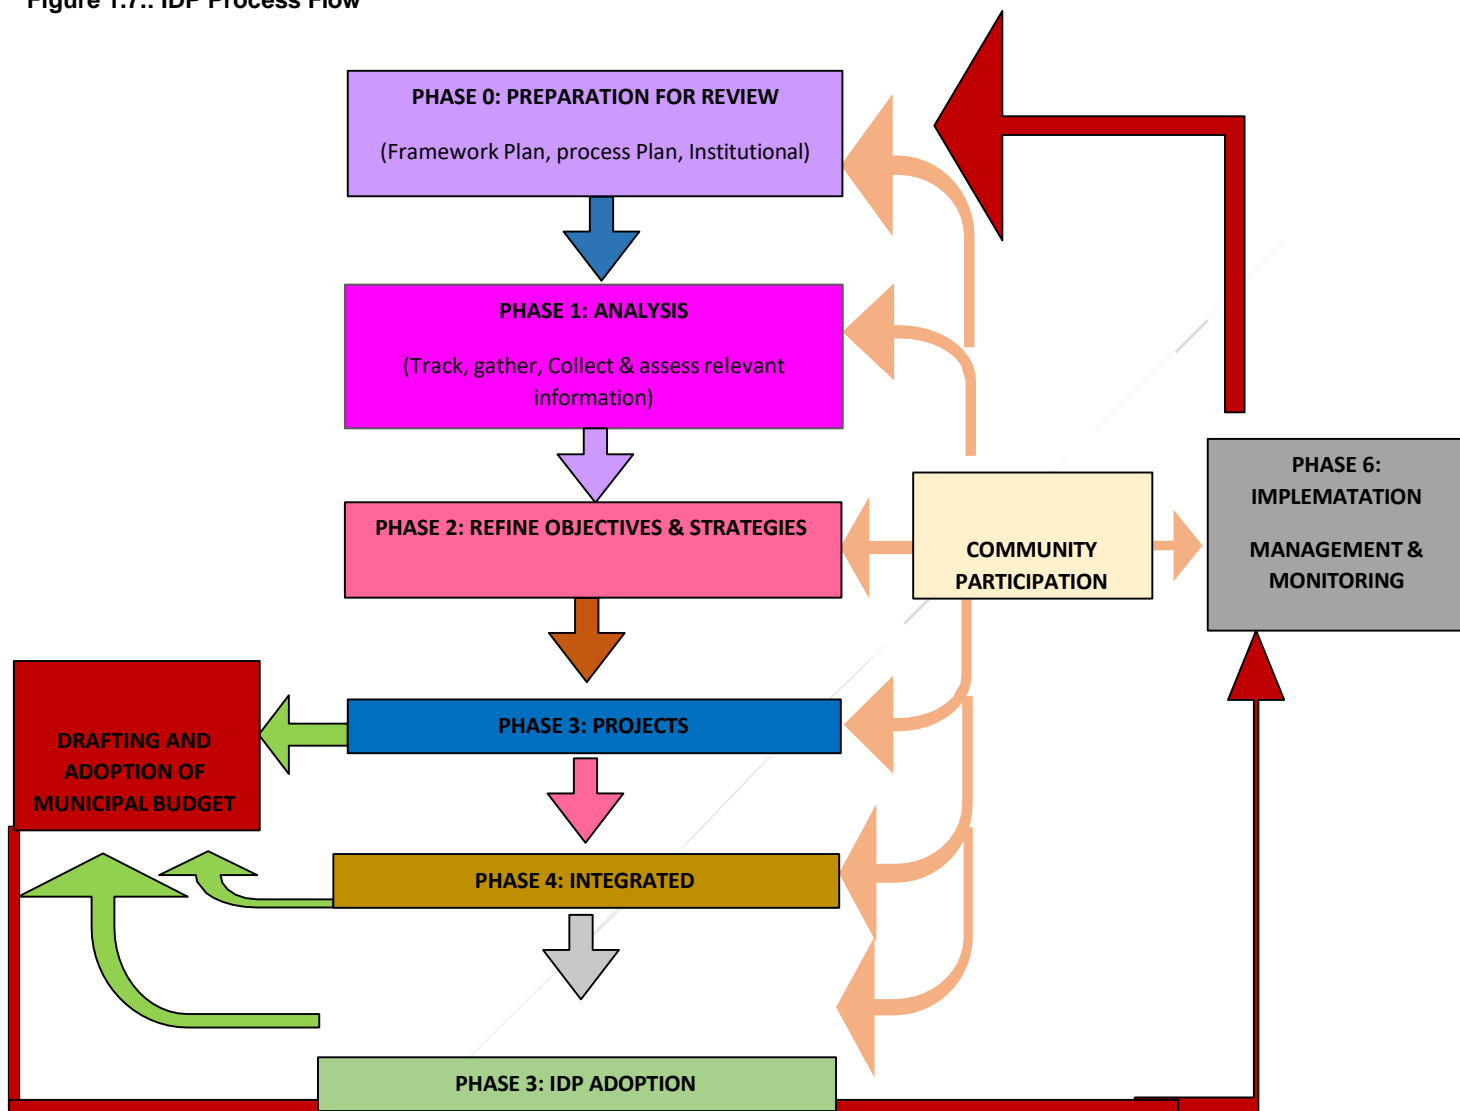

The provision of fundamental municipal services, measures for enhancing municipal capability, measures to help increase citizens' opportunities for earning a living, enterprise development, creating a dignified and secure living environment, and—most importantly—exploring novel approaches to coexisting are all areas of focus for the IDP.

The IDP is informed by a leadership agenda – as contained in National and Provincial policy documents—as well as the needs of local citizens and public and private community structures.

Moreover, in terms of Section 29 (2) & (3) of the MSA a District Municipality must develop an Integrated Development Framework for its area of jurisdiction, in close consultation with the Local Municipalities in that area. A Local Municipality must align its Process Plan with the Framework adopted in terms of Section 27 (i.e. District Framework Plan).

1.7.2.1. MECHANISM AND PROCEDURES FOR PUBLIC PARTICIPATION

The following means of communication will be used to inform the community about Public Participation Meetings: Local Newspapers, Local Radio Stations, Municipal Bill Boards, Microsoft Teams and Website etc. The medium of instruction will be the language understood by the general community.

The venue, times for public meetings will be communicated at least three weeks before the commencement of the Public Participation meetings via the Ward councilors and Local Newspapers. The IDP & Budget documents are made available in all Libraries across the Municipal area three weeks before commencement of Public Participation meetings.

Before the start of the meetings, the Department of Public Safety will assess the environment and possibilities of any protest or disruptions of meetings in order to come up with contingency plan.

1.7.2.2. MECHANISM AND PROCEDURE FOR ALIGNMENT

Vhembe District Municipality has established the district wide IDP coordination meetings which are attended by all Local Municipalities within its jurisdiction, CoGHSTA and other sector Departments. These meetings are served to align the District Framework with the Local Municipality's IDP and Budget Process Plans.

CoGHSTA also coordinates all the sector departments within Limpopo Province to present their respective plans in order to ensure that there is alignment of plans and programs under different phases of government.

The process plan for the Collins Chabane Local Municipality is guided by the Vhembe District IDP Framework as adopted by Vhembe District Municipality during a council. This is to ensure proper district alignment with all the strategic plans. The IDP Process Plan for Collins Chabane Local Municipality for 2024/25 financial year was also presented and adopted at a Rep Forum held in **19 August 2023**. It was then approved and adopted by Municipal Council on the **30th August 2023**.

1.7.4. Summary of Process Plan Implementation

1.7.4.1. Analysis Phase

According to the Municipal Systems Act 32 of 2000 (28) (1), Each municipal council, within a prescribed period after the start of its elected term, must adopt a Process Plan set out in writing to guide the planning, drafting, adoption and review of its integrated development plan.

During the month of **July – August**, the Draft Process Plan is prepared through all mechanisms and procedures such as IDP/Budget Steering Committee and Public Participation set out but Chapter 4 of the MSA. After Public Participation, Council adopts the Final Process Plan as the road map for the IDP/Budget review process with council resolution by **August** every year.

Still on the Analysis Phase, during the month **September - October**, an in-depth diagnosis assessment is done by the Municipality in relation to the levels of development, service delivery gaps or challenges, causes of existing problems, identification of priority issues (issues that needed to be addressed first), and available resources to help deal with identified challenges or problems.

To ensure that all stakeholder and the community at large receives first-hand information, the Municipality also uses Local News Papers, Municipal Websites, WhatsApp Group, Virtual Meetings and Local Radio Stations.

The Municipality conducted extensive Representative Forum and Public Participation meetings for the identification of Community Needs and Priorities. The Municipality advertised scheduled Rep Forum and Public Participation Meetings on the Local News Paper and Radio Station as per the MSA (no. 32 of 2000). Ward Councilors were tasked to inform all the stakeholders in their wards. Traditional Leaders, community members, NGOs, Parastatals, and Sector Departments were invited to attend the Public Participation meetings.

1.7.4.2. Strategy Phase

A strategic planning session was held on the **11-13 December 2023**. It comprised of Portfolio Heads, EXCO, Municipal Manager, Senior Managers, Managers and Officials to discuss the future development direction and strategies of fulfilling Collins Chabane Local Municipality's vision, mission statement and strategies have not changed and this aimed to fulfil objectives of service delivery through the Integrated Development Planning. Strategies were developed to address the Community's Needs, through identifying priority needs and coming up with projects to address them. The Municipal Strengths Weaknesses Opportunities and Threats (SWOT) analysis was reviewed to project the status quo of the Municipality.

1.7.4.3. Project Phase

During the month of **07 March 2024**, proposed projects which are informed by Situational Analysis and resolutions from the Strategic Planning Session were submitted by Municipal Departments/ Directorates to the IDP/Budget units. Spatial Planning, Community Services and Technical Services are very critical in providing support to ensure proper implementation and management for effective service delivery. This process assist in coming up with multi-year projects including new ones which form part of the Draft IDP. All the Technicians are requested to cost the projects correctly to avoid shortages of funds during implementation phase. Most capital projects are prioritized and budgeted under the Municipal Infrastructure Grant (MIG).

1.7.4.4. Integration Phase

During the month of **March 2024**, an integration of capital projects is done informed by the vision, objectives and strategies developed and resources available for the effective implementation of the project in the IDP. The exercise to integrate capital projects was aimed to put more emphasis on the management strategic planning resolutions. However, as part of the integration phase, the District Strategic Planning Workshop will be held during **April 2024** where various Sector Departments to further align sector plan with the IDP.

Vhembe District Municipality will host its Rep Forum **April 2024**. The District Municipality together with sector departments will present projects that will be implemented around Collins Chabane Local Municipality.

1.7.4.5. Approval Phase

The **2024/25 (Draft) IDP** was then tabled before Portfolio Committee on 15 March 2024, Executive Committee on 19 March 2024. The Draft IDP will then be tabled to Council on March 2024 for adoption and approval for public participation with Council Resolution Number:

IDP Public Participation to present the Draft IDP is held in clusters wherein the Municipal Jurisdiction.

All stakeholders were represented and adopted the Draft IDP with comment that were incorporated into the Final IDP document. The **2024-25 Final IDP** will be Adopted by Council on **30th May 2024**.

SECTION A: ANALYSIS PHASE

CHAPTER 2: DEMOGRAPHIC DIVIDEND

The purpose of this section is to provide information regarding the development context as well as the demographic dividends population trends of the Municipality. However, as a disclaimer to this chapter, this information is collected from STATS SA and some information dates to Community Survey 2016 due to the fact that some information is not yet updated from the latest Census 2022.

2.1. POPULATION PROFILE

A thorough examination of the demographic traits and patterns within a particular group is referred to as a population profile. Population size, age distribution, gender ratio, population composition, and population groups and migration are only a few of the data included in this document. The table below gives a snapshot of the whole population dynamics.

Name	2022	2011	Name	2022	2011
Total population	443 798	328 529	Higher education (20+ years)	7,9%	7,0%
Young children (0-14 years)	35,5%	37,7%	Number of households	108 160	83 951
Working age population (15-64 years)	57,7%	55,8%	Average household size	4,1	3,9
Elderly (65+ years)	6,8%	6,5%	Formal dwellings	91,0%	79,6%
Dependency ratio	73,4	79,3	Flush toilets connected to sewerage	19,0%	7,8%
Sex ratio	82,9	78,8	Weekly refuse disposal service	15,0%	7,1%
No schooling (20+ years)	18,6%	23,0%	Access to piped water in the dwelling	18,8%	9,5%
			Electricity for lighting	96,2%	86,3%

2.1.1. Population Size

Figure 2.1.1. Below, indicates a population of approximately **443 798** people residing at Collins Chabane Local Municipality according to Stats SA **Census 2022**. The table shows that the population is unequal by gender or sex. The demographics suggests that there are more **Females (242 686) (55%)** than **Males (201 111) (45%)**.

Figure 2.1.1.: Population Size

2.1.2. Population Structure

The Population Pyramid suggests that more than half of the population in Collins Chabane Local municipality are children (0 -14 years) and Youth (15 – 34 years). This further emphasizes that the future projection of the population is youthful and majority being women. Most of the plans must be youth based with gender equality at the forefront.

Figure 2.1.2.: Population Pyramid Structure

2.1.3. Population Composition

The age and gender profile provides valuable insight into the composition of the market population and will help establish the Potential Economically Active population (PEA). The PEA population refers to the population that falls within the working age group (between 15 and 64 years). It does not mean that this entire portion of the population is prepared or able to be employed. For example, some prefer to stay at home as housekeepers, some are disabled and others are fulltime students, or have given up looking for work. They do, however, form part of the potential labour pool. Depicting from Figure 2.2.1., it is evident that the population in Collins Chabane Local Municipality is relatively youth.

Figure 2.2.1.: Population by Age

Source: Census 2022

Further, the figure above shows the number of population that falls within the 0-14 age group is almost equivalent to the youth, which gives an indication of the large number of the population that will be entering the labour market in the future.

This point out the following;

- ✚ The need for the Department of Education to provide basic education facilities.
- ✚ The need for the creation of recreational facilities.
- ✚ The need for improved basic service delivery.
- ✚ The need for and job creation.
- ✚ The need to establishment of townships to cater for the maturing youth.
- ✚ The need for expansion of CBD and Business- Park.
- ✚ The need for road expansions and creation of intermodal transport facilities.
- ✚ The need to improve and provision of health care facilities

2.1.4. Population Growth

Population growth is a key factor in the development and planning of any municipality. Understanding population growth patterns and trends in Collins Chabane Local Municipality is crucial for effective planning and resource allocation. Hence, population projections in small areas have long been an important element in the urban and regional planning processes because of how it drives the change in demands for resources and involves the discussion of smart growth, comprehensive planning, and growth management in urban planning. It is an important aspect to consider in various fields, such as urban planning, healthcare, and environmental sustainability. Urban planning requires accurate population projections to effectively allocate resources and plan for infrastructure development. Healthcare systems need to anticipate population growth to ensure sufficient healthcare facilities and services are available to meet the needs of a growing population. Environmental sustainability relies on understanding population growth patterns to effectively manage resources and mitigate the impact of human activities on the environment. Furthermore, population growth can have significant social and economic implications. It can lead to increased demands for housing, transportation, and utilities, putting pressure on infrastructure systems. The figure 2.1.4. below shows population growth.

Figure 2.1.4.: Population Growth

Source: Census 2022.

The total population of CCLM has increased from the Community Survey 2016 by **21.6%** amounting to **95 824** population increase. This brings more issues of service delivery challenges. This means more land residential purposes must be made available, this increases the backlog on water and sanitation, electricity, housing and roads. This might bring a need for expansions of public amenities and calls for intermodal transport systems to cater for the rapidly increasing population within the municipal jurisdiction.

2.1.5. Dependency Ratio

The population dependency ratio is a demographic indicator that measures the ratio of dependent individuals to the working-age population in a given area. This ratio is important for understanding the economic and social implications of an aging population. The population dependency ratio in Collins Chabane Local Municipality is a critical factor for assessing the economic and social implications of an aging population. The population dependency ratio is calculated by dividing the number of individuals who are considered dependents (typically children and elderly) by the number of individuals who are considered to be in the working-age population.

CCLM Dependency ratio has decreased by **5.9%** from the Census 2011. This suggests a favorable trend in Collins Chabane Local Municipality toward less reliance on the working-age population. The dependency ratio has decreased, indicating a decline in the percentage of the population that depends on people of working age for sustenance. Improvements in the municipality's job market, healthcare system, and educational system may be to blame for this. Additionally, as more people are able to actively participate in the economy and support themselves, the decline in the dependency ratio may also point to a general improvement in the municipality's social and economic conditions.

This indicates that the populace is becoming more self-sufficient due to work, local economic empowerment, and educational credentials that are marketable. Additionally, this helps the indigent register. The dependency ratio will continue to decline, the CCLM economic status will rise, and there will be a direct decrease on the indigents register with ongoing educational awareness, employment, and economic empowerment. This translates into increased revenue and the reallocation of funds intended to assist those unable to pay for essential services. This trend is represented on **Figure 2.1.5.** below:

Figure 2.2.2.: Dependency Ratio

Source: Census 2022.

2.2. POPULATION CHANGES

Population changes at CCLM have significant implications for various aspects of community life, including infrastructure development, service provision, and social dynamics. Hence, population projections in small areas have long been an important element in the urban and regional planning processes because of how it drives the change in demands for resources and involves the discussion of smart growth, comprehensive planning, and growth management in urban planning

2.2.1. Population Groups

The population in Collins Chabane Local Municipality is comprised of various population groups, reflecting the diversity of the region. According to Census 2022, it was found that the population is comprised of different population groups. These population groups include: African, Coloured, Indian/Asian, and White. The African population group is the majority with **441 912 (99.6%)** in Collins Chabane Local Municipality, accounting for the largest percentage of the population. The Coloured population group is the second largest with **584 (0.1%)**, followed by the Indian/Asian with **563 (0.1%)** and White population groups with 543 and the other groups amounting to **181 (0.0%)** combined. There is a significant level of interaction and integration among these population groups in Collins Chabane Local Municipality. This is evident through various social, cultural, and economic activities where individuals from different population groups come together and collaborate. Furthermore, it was observed that each population group in Collins Chabane Local Municipality has its own unique cultural practices, traditions, and languages. These cultural differences contribute to the rich diversity and harmonious coexistence within the municipality. These findings highlight the importance of promoting inclusivity and respecting the cultural diversity within Collins Chabane Local Municipality. Table 2.2.1. shows all figures below;

The table above shows Thulamela Local Municipality leading in terms of educational inwards migration by 0.33% followed by Makhado local municipality with 0.11%. Musina local municipality is leading in terms of jobs transfer and new job opportunities as indicated in table 3.9 below. This should be of great concern for Collins Chabane Local Municipality to attract investors to develop institutions of higher learning, massive development for economic activities, improve tourism facilities and township establishments to enable people to migrate to CCLM for various activities. These will also assist in the municipal GDP.

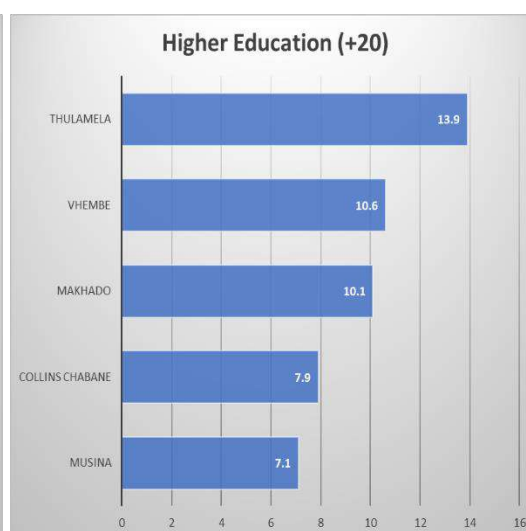

2.3. EDUCATION

According to standards of the department of Basic Education, a school should be located within a radius of 5km from the community it serves and the walking distance to and from school should not exceed 10km. Despite the 153 schools located within in the Municipal area, shortage of schools is still a grievous concern. Provision of services such as water, sanitation and electricity in school is still a challenge.

2.3.1. EDUCATION PROFILE

Lack of Education is not only one of the main factors that contribute to unemployment, but is a key indicator of development in general. Collins Chabane Local Municipality has a high level of illiteracy, however it further suggests that despite the high level of illiteracy, people with Post – Higher Diploma/ Degrees are more than 3000.

There are 132 Adult Basic Education & Training (ABET) centers and 1 University. The rendering of quality education in the district is negatively affected by dilapidated and shortage of classrooms and administration blocks, lack of electricity, dilapidated and shortage of toilets.

2.3.2. Education Norms and Standards

According to the Education Norms and Standard, a school should be situated within a radius of 5km from the community it serves and the total walking distance to and from school may not exceed 10 km. Learners who reside outside the determined feeder zone may be provided with either transport or hostel accommodation on a progressively phased and pro-poor basis. The norms and standard for teaching is the Ratio of one (1) Teacher per fourth (40) Learners in Primary and one (1) teacher per thirty-five (35) learners in secondary school, and every learner should have access to minimum set of text books.

Education service in the municipality are negatively affected by the following problems: older persons are not participating actively on ABET programme, violence, burglary, vandalism and gangsterism, management of school finance, none or late submission of Audited statements and none compliance to prescripts.

National Schools Nutrition Programme is carried out in all primary schools in the district. All Q1& Q2 Primary Schools & all Q1 Secondary schools are benefiting from the National Schools Nutrition Programme. All Q1, Q2 and Q3 are no fee schools.

The municipality has identified with a great concern the high number of 569 schools within the area which are still utilizing pit toilets as a sanitation facility. This challenge can be resolved in the following manner:

1. Educate children about toilet use
2. Employ sanitation facility management teams
3. Build proper water toilet facilities.

2.3.2.1. National School Nutrition Programme (NSNP)

The main objectives are to provide nutritious meals to targeted learners for all school going days in a financial year, facilitate the establishment of food production projects through capacity building workshops and to promote healthy living style and nutrition education through workshops on food safety, hygiene and healthy living habits. Challenges are:

- No proper infrastructural facilities in schools for food
- Storage and preparations areas, shortage of water supply
- Fencing in schools that delay implementation

COVID-19 pandemic

The municipality like any other in South Africa, faces an unnoticeable challenge that has engulfed the entire globe, the COVID-19 pandemic, which has become a power to reckon within our everyday livelihood. Safe to acknowledge that COVID-19 brought imbalances and predicaments. The pandemic has fashioned a quicksand to the world and has diverted attention from critical service delivery programs, to a balance of life and economic survival. The result of the above meant a lot of sacrifice to both human and government in ensuring a critical paradigm shift in our livelihood.

COVID-19 pandemic did not only affect the municipality negatively but assisted the municipality to develop strategies to deliver services to the communities and to resume municipal duties; amongst those strategies are: encouraging people to work at home, conducting meeting via zoom, coming to work in rotation to keep offices running.

Even after the full functioning of the offices we learn a lot, even today we adopted the some of COVID-19 regulations such taking hygiene seriously (involving washing hands), avoiding direct conduct, wearing face mask when people have flu.

2.7.2.1. PEOPLE WITH DISABILITIES

As illustrated by figure 2.8.1, indicates that Collins Chabane Local Municipality has a very low number of disable people residing in the area. However, it indicates that the number of people who find it difficult to care for them self is more than five thousand (5000). More than seven hundred (700) people cannot take care of themselves. This indicates that the Municipality should plan for home base care centurms.

2.7.2.2. Health challenges

The quality of health care in Collins Chabane Municipal area is in a poor state. The following are some of the health challenges that our communities continue to face on a daily basis:

- ✚ Shortage of medication and health care professionals;
- ✚ Communities travel long distance to access health facilities,
- ✚ High number of defaulters in HIV/ AIDS AND TB Patients
- ✚ Clinics that operate 24 – hours are unavailable,
- ✚ Poor or bad roads to access some of the health facilities.
- ✚ No sheltered structures in some mobile clinic visiting points.
- ✚ Shortage of Professional and support staff.
- ✚ Infrastructural challenges compromise the provision of quality primary health care services.
- ✚ High level of crime where armed robbery and burglary occur in health facilities which affect the provision of 24 hours' services to the community.
- ✚ Communal water not connected to the clinic and clinic depends on water from boreholes.

2.7.3. Social Services

The Municipality has appointed one (01) Social Services Manager, with one (01) Disaster Management Coordinator, one (01) Horticulture Supervisor and (09) nine Horticulture General Assistants whose main functions are to:

- ✚ Manage & maintain parks,
- ✚ Bush clearing along the roads and within Municipal properties
- ✚ Planting of crops, trees, flowers and lawn
- ✚ Tree Pruning

2.8. SOCIAL GRANT POPULATION BY NODAL POINTS

2.8.1.: Social Grant

Table 2.8.1. gives an overview of the social grant dependency in Collins Chabane Local Municipality area. The high number of child support grant indicates a high fertility and unemployment rate.

2.8.2. Social Development Infrastructure

According to service standard, all service offices or points must be within a distance of twenty (20) km radius. One Social welfare practitioner should serve a population of 3,000 (1:60) children in a particular service point. Social assistance applications should be complete within 8 hours – more realistic 45-56 hours.

Table 2.8.2 below indicate 25 numbers of victim empowerment canterers with a backlog of 02 and total number of 82 drop in canterers with a backlog of 16.

CHAPTER 3: COMMUNITY NEEDS

3.1. STAKEHOLDER ENGAGEMENT AND CONSULTATION IN THE IDP PROCESS

Community and stakeholder participation in matters of local government is the cornerstone of democracy. Section 152 of the South African Constitution (Act 108 of 1996) put it succinctly that: “*the objects of local government includes, amongst others, the encouragement of involvement of community and community organisations in matters of local government*”.

Furthermore, the Local Government: Municipal Systems Act (Act 32 of 2000) (Sec 16) states that a Municipality must develop a culture of Municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose encourage, and create conditions for the local community to participate in the affairs of the Municipality, including in the preparation, implementation and review of its integrated development plan.

In order to give effect to the above legislative provisions, the Collins Chabane Local Municipality has adopted a Public Participation strategy that outlines the processes, mechanisms, and procedures for community and stakeholder participation. The participation of communities is driven through a Ward Committee System managed by the Public Participation Unit located in the Office of the Speaker and the IDP Representative Forum arranged through the Office of the Mayor.

Moreover, the Municipality's Public Participation process comprises of community meetings, cluster meetings, Mayoral Imbizo(s), Speakers Outreach programmes, chamber of business and commercial stakeholder's engagements and traditional leader's engagements. The Municipal IDP needs to take into consideration the views of the local community members and interest groups as expressed through various processes and forums.

3.2. EFFECTIVE COMMUNITY PARTICIPATION

It is the experience of Municipalities that Public Participation related to IDP mainly raises issues around the immediate living conditions of the community. Many of these issues raised by the communities are therefore not of a long term or strategic nature.

CHAPTER 4: SPATIAL RATIONALE

This section outlines how the municipality strives to integrate issues of planning and community development. According to Section 26 of the Municipal Systems Act (MSA) the Municipal Spatial Development Framework (MSDF) must be aligned to the IDP. All other spatial plans must be aligned with the MSDF. Therefore, no spatial plan of the municipality may contradict the MSDF or the IDP. Section 35(2) of the MSA, indicates that a spatial development framework contained in the Integrated Development Plan prevails over a plan defined in section 1 of the Physical Planning Act, 1991 (Act No. 125 of 1991). Section 1 of the Physical Planning Act defines 'plan' as a national plan, a regional development plan, a regional development plan, a regional structure plan or an urban structure plan.

This section gives an overview of the spatial analysis of the Collins Chabane Local Municipal area. The Municipal council of the Collins Chabane Local Municipality adopted its second Municipal Spatial Development Framework (MSDF) in August 2021 and Land Use Scheme (LUS) in August 2018 which is aligned to the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013) (SPLUMA).

The spatial analysis exercise provides a visual picture of the existing spatial pattern (nodes, networks and areas) that has emerged in the Municipal area. This analysis serves to describe the Municipal area in spatial terms and understand how space is utilized in the Municipality. It also looks at settlement patterns and growth points (nodes), population concentration areas, land claims and their socio-economic implications. All these aspects have a bearing on future land usage, infrastructure investment, establishment of sustainable human settlements, public transport and local economic development.

4.1. SPATIAL RATIONALE

The Spatial Rationale gives an overview of the settlement hierarchy based on the classification of settlements, in terms of town or village. Table 4.1 and Figure 10 below gives an overview of the spatial rationale of Collins Chabane Local Municipality area.

Table 4.1.: Hierarchy of Settlements

HIERARCHY	TYPE	CHARACTERISTICS	AREA
FIRST ORDER SETTLEMENT	Provincial Growth Point	<ul style="list-style-type: none"> • Very well positioned along the National and Provincial movement network. • Function as high order service canter • Have relatively large local populations. 	Malamulele
	District Growth Point	<ul style="list-style-type: none"> • Large rural clusters with small economic bases. • Accessible via the Provincial road network. 	Saselamani
	Municipal Growth Point	<ul style="list-style-type: none"> • Large rural clusters with small economic bases. • Accessible via the Provincial road network. 	Vuwani and Hlanganani
SECOND ORDER SETTLEMENT	Population Concentration Points	<ul style="list-style-type: none"> • Towns/villages or group of villages located close to each other and have substantial number of people located in these villages. 	Tiyani, Mahatlani, Majosi, Ribungwani, Bungeni and Mavambe, Vyeboom

THIRD ORDER SETTLEMENT	Local Service Points	<ul style="list-style-type: none"> • Situated in the midst of a high number of small scattered villages. • Focus needs to be on community infrastructure. 	Mukhomi, Xikundu, Olifantshoek, Tshimbupfe A & B; Mulenzhe, Mtiti, Mphambo, Mhinga, Magona and Gumbani.
FOURTH ORDER SETTLEMENTS	Village Service Areas		All Other Villages

4.1.1. SETTLEMENT PATTERNS

CCLM has approximately 198 villages and 2 Informal Settlements. There are only 2 proclaimed townships namely Malamulele and Vuwani and also 5 RDP Townships. In terms of the surveyed settlements a total of 80 settlements have General Plans.

Type	Total Number
Proclaimed Township(S)	2 – Malamulele & Vuwani
RDP Settlements	5- Mhinga, Saselamani, Mtiti, Mahonisi And Hlanganani
Informal Settlements	2- Rhulani & Xiparapureni
Villages	198
Total	201

4.1.2. SPATIAL FEATURES

- ❖ Unstructured land development resulting in a distorted spatial pattern (un-proclaimed areas)
- ❖ Increase in unplanned human settlements.
- ❖ Unsecure land tenure (Malamulele B Ext 1 & 2; Malamulele D Ext 1, 2 & 3)
- ❖ Land invasions in Malamulele and Vuwani
- ❖ Unregistered Municipal properties.
- ❖ Illegal Land Uses (Malamulele and Vuwani)

4.1.2.1. SPATIAL PLANNING CURRENT PROJECTS

Collins Chabane Local Municipality is having a good working relations with Traditional Authorities within the jurisdiction. This is in line with the implementation of SPLUMA and its regulations. This close relation with Traditional Authorities assisted in coming with projects such ranging from Formalization, Demarcation of Sites and Township Establishments:

PROJECT NAME	NODAL POINT	NUMBER OF ERVEN	NAME OF TRADITIONAL COUNCIL
Formalization & Proclamation: Mavandla	Malamulele	2000 + 1000	Madonsi Traditional Council
Township Establishment: Majosi	Hlanganani	2000	Khomanani Traditional Council

Formalization & Proclamation: Saselamani	Saselamani	2000	Shikundu Traditional Council
Township Establishment : Mtititi	Malamulele	2000	Mtititi Traditional Council
Formalization: Vuwani	Vuwani	5400	N/A
Demarcation of Sites: Greenfarm Village	Malamulele	500	Madonsi Traditional Council
Demarcation of Sites: Vuswayi Ext 2 Village	Malamulele	500	Madonsi Traditional Council
Demarcation of Sites: Tshikonelo Village	Malamulele	1000	Tshikonelo Traditional Council
Demarcation of Sites: Maphiveni	Vuwani	400	Hamutsha Traditional Council
Demarcation of Sites: Makhasa	Malamulele	200	Xigalo Traditional Council
Demarcation of Sites: Mabodhlongwa	Hlanganani	400	Bungeni Traditional Council

4.1.3. SPATIAL DEVELOPMENT FRAMEWORK (SDF)

The Collins Chabane Local Municipality has adopted its second **SDF in 2021** following all the processes that are prescribed in terms of law. It was approved in terms of the Municipal Systems Act, 2000 (Act 32 of 2000) and serves as a guide to decision making in development and land use planning. This section therefore outlines the spatial vision, analysis, strategic framework and desired spatial pattern of the Collins Chabane Local Municipality.

Chapter 4 of the Spatial Planning and Land Use Management Act (Act 16 of 2013) requires each Municipality to prepare a spatial development framework that will, amongst others, guide planning and development decisions across all sectors of government. It must also interpret and represent the spatial development vision of the responsible sphere of government and competent authority which is informed by a long term spatial development vision statement and plan. Section 26 of the Municipal Systems Act (Act 32 of 2000), as amended, also dictates that a Municipality's integrated development plan must reflect a spatial development framework which must include the provision of basic guidelines for the land use management system.

A Municipal Spatial Development Framework (MSDF) is a long-term (10-20 year) development framework which articulates the vision, goals and objectives of the Municipality spatially through strategies designed to address physical, social and economic shortcomings. It co-ordinates the spatial implications of all strategic sector plans of a Municipality. An MSDF is also one of the core components of a Municipal IDP and gives physical effect to the vision, goals and objectives of the Municipal Integrated Development Plan (IDP).

The primary aims and objectives of the SDF

To create a spatially based policy framework whereby change, needs and growth in the Collins Chabane Local Municipal area are to be managed positively to the benefit of everyone. It focuses on how land should be used within the broader context of protecting the existing values of the Collins Chabane Local Municipal area i.e. tourism destination, rich historical and cultural areas.

- ❖ To improve the functioning of the local urban and rural, as well as the natural environmental systems.

- ❖ Identification of local opportunities for future urban/ rural development, and natural environmental conservation, and make recommendations as to where and how development of the open space system should be managed.
- ❖ To establish strategies and policies to achieve the desired spatial form i.e. movement and linkage systems, open space system, activity system, overall land use pattern etc.

4.1.3.1. Nodes

The CCLM SDF aligns to 4 of the 2015-2020 Limpopo Development Plan (LDP) strategic objectives which are aligned with the Medium-Term Strategic Framework. The strategic objectives include ensuring inclusive growth, decent work and sustainable livelihoods, investment in economic and social infrastructure (improve access to quality education and healthcare); rural development, food security and land reform; cohesive and sustainable communities; and sustainable resource management and use. Within these strategic objective the LDP 2015-2020 designed 4 key pillars of intervention which includes:

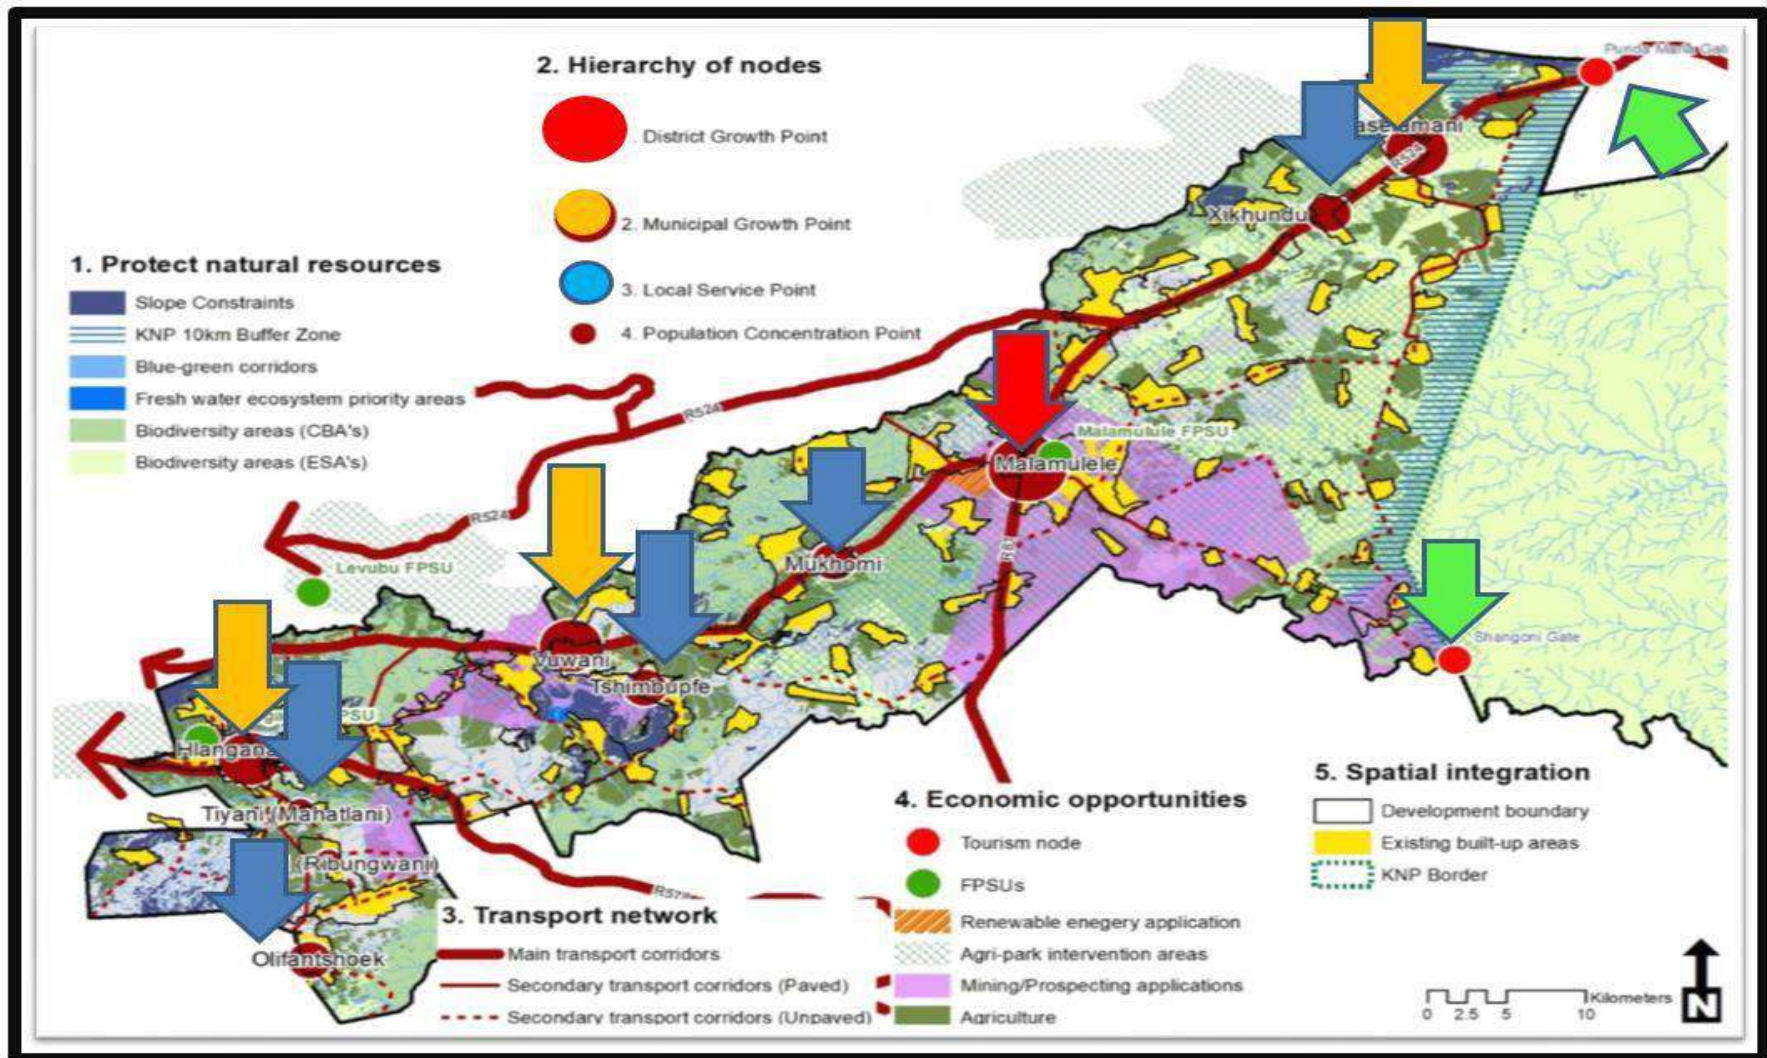

- ❖ Economic development and transformation
- ❖ Infrastructure development
- ❖ Building developmental state
- ❖ Social Cohesion and transformation.

The CCLM SDF acknowledges that equal financial investment within these 4 pillars and across the entire Municipality will not be financially viable nor sustainable. For this reason, it sets out a nodal hierarchy which will inform investment. This spatial rational introduces establishment of Nodal Points within the Municipality. The SDF has identified Nodal Points that are Provincial Growth Points; District Growth Points, Municipal Growth Points, Local Service Points and Population Concentration Points. The SDF has identified core areas comprising of four Municipal Nodes namely: Malamulele; Saselamani; Hlanganani/ Nkuzana and Vuwani. These Nodes are located along roads/development corridors and within which to concentrate development. It is proposed that development should be focused within these nodes so that they become places where services are rendered at a central point to communities.

Furthermore, the SDF identifies Population Concentration Points which act as economic feeders to the identified Nodal Points. It is proposed that in these areas investments should focus on social facilities in order to increase accessibility to social facilities and effective public transport systems. The identified areas are Mhinga, Mavambe, Mphambo, Xikundu, Mtititi, Mulenzhe, Bungeni, Mukhomi, Magona, Nkuzana and Gumbani.

Mukhomi, Tshimbupfe and Olifantshoek have been identified as Local Service Points whereby the SDF proposes that social services need to be consolidated in these areas to effectively serve the extensive surrounding rural communities. The focus on these areas should therefore be on community infrastructure and not necessarily economic infrastructure.

Figure 3. Hierarchy of Nodes

Source: CCLM SDF, 2021

4.1.3.2. Corridors

In terms of improving access to these nodes, the SDF identified several priority networks which are critical for movement; distribution of goods and services; and connectivity. These road networks are critical to connecting local nodes and the Municipality as well as connecting the other municipalities for the efficient movement of goods and services throughout the Municipality.

The SDF identifies several corridors which are of great significant to the Municipality. These corridors include the R578 (between Makhado and Giyani), R81 (Between Giyani and Malamulele), D4 (between Vuwani and Malamulele) and the R524 (between Punda Maria and Thohoyandou) which are main transport corridors that provide access to the different major areas in the Municipality.

These main corridors need to be prioritized for maintenance by SANRAL/RAL. Other identified corridors include secondary roads which provide links between nodes and villages which are mostly District roads which should be prioritized for tarring (if gravel) as well as maintenance to improve public transport facilities and flow of passengers through the Municipality.

The SDF also proposes that the road linking Malamulele to Altein should be prioritized as it could become a very important tourism corridor with the establishment of the proposed Shangoni Gate and Tourism Node.

4.2. LAND USE COMPOSITION AND MANAGEMENT TOOLS –LUS/GIS

CCLM has adopted a Land Use Scheme (LUS) which it is a planning tool that allows or restricts certain types of land uses to certain geographic areas in accordance with the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013). The Collins Chabane Local Municipality Council adopted its first Land Use Scheme in 2018 which is operational and will be due for review after 5 years (2023).

A Geographic Information System (GIS) assist with information regarding land development and upgrading. The Municipality has therefore developed its GIS programme however does not have the human capital to operate the system.

4.2.1. Spatial Planning Policies and By-Laws

The municipality has developed and adopted the following by-laws:

NAME	ADOPTED BY COUNCIL	STATUS
Spatial Planning And Land Use Management By-law	2019	Being Implemented
Land Disposal Policy	2020	Being Implemented
Spatial Development Framework	2021	Being Implemented
Land Use Scheme	2018	Under Review
Human Settlement Strategy	2019	Being Implemented
Led Strategy	2019	Being Implemented
Libra	2019	Being Implemented
Street Trading By-law	2018	Being Implemented
Advertising And Billboards By-law,	2018	Being Implemented
Noise Control By-law	2018	Being Implemented

Hardware Storage Of Goods By-laws	2018	Being Implemented
Place Of Public Worship By-law	2018	Being Implemented
Tuck Shops By-laws	2018	Being Implemented

4.2.2. Implementation of SPLUMA

i. The Spatial Planning and Land Use Management Act No. 16 of 2013 was enacted by the State in August 2013 as a result the following Acts were repealed:

- Removal of Restrictions Act No.84 of 1967
- Physical Planning No 88 of 1967
- Physical Planning No 125 of 1991
- Development Facilitation Act No.67 of 1995
- Less Formal Township Establishment

ii. The objectives of the SPLUMA are:

- To promote greater consistency and uniformity in the application procedures and decision making by authorities for land user decisions and development applications
- For the establishment of Municipal Planning Tribunals (MPT)
- To provide for a framework for policies, principles norms and standards for spatial planning and land use management
- To address past spatial and regulatory imbalances

iii. General principles of SPLUMA

SPLUMA puts forward a set of principles to influence spatial planning, land use management and land development. It also provides for National and Regional Spatial Development Frameworks as well as provincial and municipal spatial development frameworks, implying that a package of plans will be undertaken from national to municipal level to direct land use management, while providing for uniform regulation of land use management throughout South Africa.

The general principles endorsed by this Act is that Spatial Planning, Land Use Management (SPLUM) and land development must promote and enhance Spatial Justice, Spatial Sustainability; Efficiency; Spatial Resilience, and Good Administration.

iv. Municipal Planning Tribunal and Appeals Tribunal

The Collins Chabane Local Municipality has established its Municipality Planning Tribunal (MPT) and Appeals Tribunal in terms of the relevant sections of SPLUMA. The MPT consists of 5 external members and 3 internal members. Furthermore, the appeals tribunal consists of 5 external members and 3 internal members. The term of office of these members is 5 years and was established in August 2018 and was reviewed for a second term December 2023.

4.2.2. Spatial Analysis

The spatial challenges experienced by the Municipality such as scattered settlements have become too costly to provide services. The apartheid spatial pattern is still evident with sprawling rural villages situated in traditional authority areas located far from employment opportunities, thus presenting a transport cost problem for workers. State-owned land is mostly in the custodianship of Traditional Councils with a large percentage of land held under leasehold and Permission to Occupy. Because of this, land ownership is regarded as insecure, which in turn acts as a hurdle to land development. The high-level Strength, Weakness and Opportunities of the Collins Chabane Local Municipality are summarized in the table below.

Table 4.2.: Spatial SWOT Analysis

STRENGTHS	WEAKNESSES	OPPORTUNITIES	THREATS
Functional Municipal Planning Tribunal (MPT)	Municipality unable to service sites that are being developed. (Water & Sanitation)	Traditional Leaders/Authorities willing to work with the Municipality in terms of Land Development.	Land Invasion
Spatial Planning and Land Use Management (SPLUMA) By-laws, SDF and Land Policies in place	Land parcels still registered in the name of Thulamela and Makhado Local Municipality.	The Minister of Agriculture, Land Reform and Rural Development willing to donate land to the Municipality for development.	Insecure Land Tenure
Capable human capital to deal with land use management.	GIS not fully functional resulting in delays in updating information relating to land use management and development.	Private Developers willing to work with the Municipality to develop Integrated Human Settlements. E.g. Masingita Group of Companies and Nandoni Golf Estate.	Litigation against the municipality regarding invaded land resulting in development being delayed.
Municipal Programmes are in place to deal with unplanned human settlements (demarcation of sites).	Land Parcels not registered at the Deeds office (no ownership)	Agencies such as DBSA willing to work/support the municipality for the development of Integrated Human Settlements.	

4.3. ELEMENTS THAT INFLUENCED THE SPATIAL FORM OF COLLINS CHABANE LOCAL MUNICIPALITY AREA

4.3.1. Past Political Ideologies

Apartheid planning resulted in disperse spatial pattern. This created a distorted spatial structure and lead to inefficiencies and backlogs in service provision.

4.3.2. Tribal Authority Areas

Dispersed settlements developed with no order. Ad hoc and unsustainable service and infrastructure development occurred. The apartheid residential is still very much evident with sprawling rural villages situated in traditional authority areas located far away from employment opportunities, thus become too costly for people to travel to their working places

4.3.3. Land Ownership

State- owned land is mostly under the custodianship of Traditional Authorities. Large percentage of land is held under leasehold title and Permission to Occupy. Because of this, land ownership is regarded as insecure, which in turn acts as a hurdle to land development.

4.3.4. Major Roads

Collins Chabane Local Municipality has development corridors that link to the Municipal Nodal Points such as the D4 from N1, Vleifontein, Elim, Vuwani, Malamulele until Shangoni Gate- Kruger National Park, Thohoyandou to Malamulele- Along Road R524 north from Thohoyandou and turn right to R81 to Malamulele Basani to Saselamani - Along Road R524, Malamulele to Giant reefs- Along a gravel road south east from Malamulele up to Giant Reefs and Malamulele to Giyani - Along Road R81

4.4. INTEGRATED AND SUSTAINABLE HUMAN SETTLEMENT

Human settlement development is a mandate of The Department, Corporative Governance Human Settlement and Traditional Affairs (CoGHSTA), the Municipality's role is only to facilitate. According to Stats' Census 2022, the number of households in Collins Chabane Municipal area is **108 338**. The number of households always increase as the population increase.

4.4.1. Human Settlement Types

Collins Chabane Local Municipality has achieved notable quantitative success in housing delivery, but this has also perpetuated undesirable settlement form. CCLM being a rural municipality has low-density, mono-functional and predominantly low income residential areas on the periphery of the municipality with limited related economic opportunity. However, a good picture is painted through the types of Human Settlements and dwelling units within the jurisdiction of the municipality.

4. 4.2. Household Trends

The figure below shows that 58% of households are headed by females and only 42 % are male headed. This is mostly due to male migration to urban areas for job opportunities, high male death rate than women, life expectancy and some due to the lack of responsibility resulting in high number of women headed households.

Figure 4.1.: Household Trends

Table 4.3.: Types of dwelling units

The table further indicates that the majority of people in Collins Chabane Local Municipality area resides in “formal dwelling, brick structures”

Main Dwelling that household lives in	Number
Formal dwelling/house or brick/concrete block structure on a stand	69952
Traditional dwelling/hut/structure made of traditional mater	16521
Flat or apartment In a block of flats	61
Cluster houses in complex	237

Informal dwelling/shack in backyard	389
Informal dwelling/shack not in backyard (e.g. in an informal settlement)	67
Room/flat let on a property or larger dwelling/servants quart	68
Other	1359

Collins Chabane Local Municipality housing backlog is estimated at **26**. However, the allocation for 2023/24 financial year is **418** housing units.

4.4.3. Building Inspection

The Collins Chabane Local Municipality Housing and Building Control Unit is in charge of Building Inspections. The following legislative requirements are used by the Unit on a daily basis in the application and enforcement of the Act on National Building Regulations and Building Standards (Act 103 of 1977) as well as in the evaluation and approval of building plans, demolition and other applications in terms of the following:

- ❖ The National Building Regulations Act (Act 103 of 1977).
- ❖ Architects Act (Act 35 of 1970).
- ❖ Collins Chabane Land Use Scheme, 2018 (Under review).

Core Function of building Inspections sub-unit

i. Services provided by building Inspections sub-unit include the following:

- ❖ Building plan evaluation and approval
- ❖ Minor works permit approval (for work such as swimming pools, small 'Wendy' houses)
- ❖ Extension of the validity of an approved building plan

- ❖ Temporary structures permits
- ❖ Demolitions permits
- ❖ Copies of approved building plans

ii. In additions, other responsibilities are:

- ❖ Building Inspection during the construction period
- ❖ Issuing of Occupation Certificates
- ❖ General enforcement of building Regulations
- ❖ Investigation and resolving building complaints, contraventions and illegal building work
- ❖ Maintaining statistics on building construction activities

4.5. SPATIAL RATIONALE CHALLENGES

Table 4.4.: Spatial rationale challenges

CHALLENGES
Backlog in the provision of RDP houses
Lack of individual tittle deeds (Malamulele and Vuwani) townships.
Unapproved developments.

CHAPTER 5: BASIC SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT

5.1. WATER AND SANITATION PROVISION

The RSA, Constitution of 1996, guarantees the rights to a basic access to water and a basic sanitation service that is affordable. Strategic framework for water service define basic water supply as provision of basic water supply facilities, the sustainable operation of facilities and the communication of good water use, hygiene and related practices. Water should be available for at least 350 days per year and not interrupted more than 48 consecutive hours per incident. Basic supply facility is defined as the infrastructure necessary to supply 25 liters of portable water per person per day supplied within 200 meters of a household and with a minimum flow of 10 liters per minute i.e. in case of communal water points or 6000 liters of portable water supplied per formal connection per month in case of yard and household connection.

5.1.1. WATER AND SANITATION AUTHORITY

Vhembe District Municipality is the Provider and water Service Authority (WSA). Vhembe District is responsible for bulk water supply and sanitation infrastructure. The District purchases bulk raw water from the department of Water Affairs, then process or clean the water for reticulation. The goal of Vhembe District Municipality WSA is to supply every household with an adequate and reliable water supply and to manage the water supply services in an affordable, equitable and sustainable manner.

There is a huge water and sanitation backlog at CCLM. A large number of households have access to water; however, challenges of upgrading, resource extension, operation and maintenance as well as refurbishment needs are immense. Infrastructure upgrading and refurbishment and reticulations remains major problems.

5.1.2. WATER CATCHMENT SOURCES IN THE DISTRICT

The Province's water resources are obtained from 4 Water Management Areas (WMAs), namely: The Limpopo, Olifants, Luvuvhu-Letaba and Crocodile West Marico WMAs. In terms of water resources, Nandoni and Vondo RWS falls within the Luvuvhu/Letaba water catchment area which spans across Vhembe and Mopani District Municipalities. The sources of water in the District are from dams, weirs and boreholes: the 12 dams are Nandoni, Albasin, Vondo, Nzhelele, Luphephe, Nwanedi, Tshakhuma, Mutshedzi, Capethorn, Damani, Cross and Tshirovha dam. 3 weirs are Mutale, Khalavha and Magoloi weir.

5.1.3. MAIN SOURCE FOR DRINKING WATER

The table below reflects the number of households with access to the different sources/ standards of water provision:

Table 5.1.: Source of Drinking water

Name	Frequency	%
Piped (tap) water inside the dwelling	20 369	18,8%
Piped (tap) water inside the yard	37 194	34,4%
Piped (tap) water on community stand	27 323	25,3%
No access to piped water	23 274	21,5%

5.1.4. SANITATION

The District is the authority and provider of Sanitation services. Vhembe District has 9 waste water works (Thohoyandou, Makhado, Reitvlei, Malamulele, Maunavhathu, Watervaal, Elim Orbal, Musina Nancefield, Musina Singelele,) 11 Ponds (Mhinga, Tshufulanani, Madzivhandila, Matatshe, Tshireke, Siloam, Dzanani, Lemana, Vleifontein, Phalama) and 10 Booster pump stations (Riphambeta, Maniini A, Maniini B, Nare Tswinga, Mbilwi, Shayandima, Eltivillas, SA Brewery, Musina) in the District. The Challenges experienced by the District Are Waste water plants receiving more inflow than the design capacity; vandalism and theft of manhole covers and cables; Introduction of undesirable objects in the sewerage system, lack of staffing to operate the plant, ageing Infrastructure, over grown shrubs and grass at plants and poor maintenance of sewerage system.

The table below gives an overview of the number of households in Collins Chabane Local Municipality Municipal area with access to different toilet facilities.

Table 5.2.: Number of household with services

Figure 5.2.: Distance between household and drinking water

Figure 5.2. The figure above indicates that the distance (more than 200m) between households and source of drinking water is very high.

5.2. ELECTRICITY AND ENERGY AUTHORITY

Energy distribution has an important economic developmental implication with a potential to make considerable impact to improved living conditions, increased productivity and greater sustainability of the environment. Electricity at Collins Chabane Local Municipality is supplied by Eskom. The table below, suggests that the majority of households have access to prepaid electricity.

Table 5.3.: Household access to electricity and other energy sources

5.2.1. Backlog in Electrification of Households

The current backlog on electrification of households is 5451 units. Projects which were earmarked for 2021/22 Financial Year (FY) includes:

- ❖ INEP Funded – Mbhuti phase 02, Makhasa, Miseveni A&C, Masia Miveledzo, Masia Tandavale and Ekurhuleni;
- ❖ INEP Funded – Mbhuti phase 03, Makhasa phase2, Miseveni A & C phase2, Masia Miveledzo phase2, Masia Tandavale phase2, Ekurhuleni phase2 and Rikaka, Mavilingwe.
- ❖ Own Funded – Malamulele B-ext. phase1, Malamulele B - Ext Phase 2, Makhasa, Madobi, Khakhanwa, Muhunguti, Makahlule, Manghena, Dovheni and Malamulele D - Ext.

The electricity backlog is continuously increasing as it is a moving target as and when there are new developments. New extensions keep increasing rapidly as the increase of population size and migration rate.

Table 5.4.: Electrified Households

FINANCIAL YEAR	COLLINS CHABANE	ESKOM	NUMBER OF HOUSEHOLDS
2016/17	0	963	963
2017/18	1161	2111	3272

2021/22	983	487	1470
2022/23	250	350	600
TOTAL	4864	6080	10944

The current backlog on electrification of households is **5451**. This shows that since inception CCLM and Eskom managed to supply **10344** households with electricity.

5.2.2. Electricity Licensing Authority

The Municipality has engaged Nersa and Eskom. A letter was written from the Municipality to Nersa indicating the areas of interest. Nersa has acknowledged the receipt of the letter. The Municipality is now waiting for a consent letter from Eskom for the letter written on the 11th of November 2021, indicating that they agree to hand over to the Municipality for the areas: - Nandoni Golf Estate and Nkuna City. Once Eskom approved the request submitted to Nersa, there will be a handing over exercise to hand over the area from Eskom to CCLM.

MISA is also assisting the Municipality to acquire a license. The process will take some time before it is finalized. Obtaining a license as the Municipality will help to increase revenue collection and create more jobs for the community of Collins Chabane Local Municipality. However, a feasibility study will be made by the municipalities, to share the best practices with the license for electricity distribution; and all villages that are not of ESKOM authority will be directly applied from NERSA.

5.2.3. High Mast Lights Installation

- Backlog 0 wards
- Backlog 110 villages

NUMBER OF WARDS BENEFITED	VILLAGES	HIGH MAST LIGHTS INSTALLED
36	83	93

A resolution was taken at the strategic planning meeting held at Tzaneen in December 2020; to discontinue High Mast Lights due to the high cost of monthly billing from Eskom. The municipality started with the installation of Solar LED Street Lights; due to being cost effective and last longer as compared to High Mast Lights. They are also independent of the energy grid as they do not have a monthly bill.

5.2.4. High Mast Lights Installation at Stadiums

In the last financial year, 12 stadium high mast lights have been installed in 3 wards, at 3 stadiums, 4 at Merwe Stadium, 4 at Mdavula Stadium and 4 at Saselamani stadium.

5.2.5. Solar LED Street Lights

FINANCIAL YEAR	AREA	NUMBER OF SOLAR LIGHTS INSTALLED
2019/20	Malamulele Town	148
2020/21	Malamulele Town	150

2022/23	Saselamani Cluster	60
2022/23	Hlanganani Cluster	50
Total		928

5.2.6. Traffic Lights

There are four traffic lights installed at the Municipality at the Malamulele area. The Municipality is paying R 1 801.60 per month for all four traffic lights. The rationale is to reduce traffic accidents and congestion. Solar traffic lights installed at Vuwani.

Hlanganani, Saselamani and Mhinga solar traffic lights installation were not approved by SANRAL to be installed by Municipality.

5.2.7. Street Lights/High Mast Lights Maintenance

Table 5.5.: The Municipality is responsible for the maintenance of street light at the following areas:

	Number of street lights	Maintained
Malamulele Cluster	528	60%
Saselemani cluster	110	80%
Vuwani	145	80%
Hlanganani	145	20%

The total estimated cost per month for maintenance of street lights is R27 293.56, whereas the estimated cost for maintenance of high mast light is R181 979.48 per High Mast Light.

5.2.8. Solar Panels 100KVA

5.2.8.1. Solar Panels at the Municipal Buildings

Financial year of 2020/21.

- Solar panels have been installed in Malamulele Boxing gym.

Financial year of 2021/22.

- Solar panels have been installed in Malamulele Civic Center.
- Solar panels have been installed in Malamulele Community Hall.

Due to the large electricity bill, solar panels reduce the cost of electricity.

5.2.8.2. Household Solar Panels

- 50 solar panels installed at non-grid various households by Solar Vision Pty
- Solar vision is billing Municipality an amount of R50 000 per month for services

5.2.9. Electricity Backup Generators

Load shedding is becoming a new normal and imposes a critical challenge of power shortages and in that regard inconveniences any activity taking place within the jurisdiction. The municipality as a way to proactively deal with power outages came with backup as follows within the financial years:

Financial year of 2019/20

- 200KVA Back-up generators were installed at Malamulele Civic Centre.
- 200KVA Back-up generators were installed at Traffic Station.
- 200KVA mobile stand-by generator was supplied to DCO Offices.

Financial year of 2020/21

- 200KVA Back-up generator was installed at Saselamani Stadium.
- 150KVA Back-up generator was installed at Malamulele Boxing Gym.

Financial year of 2022/23

- 200KVA Back-up generator was installed at Malamulele information center
- 200KVA Back-up generator was installed at Vuwani Traffic Station
- 200KVA Back-up generator was installed at Vuwani Sub office

The purpose of the generators is to act as a back-up power supply during power outages.

5.3. ROADS AND STORM WATER SERVICES

5.3.1. Roads

It is also through Municipal roads where it becomes evident that Collins Chabane Local Municipality is predominantly rural. A high number of Municipal roads gravel and their conditions only improve through grading. However, a large percentage of the roads are still unpaved and are not tarred.

5.3.2. Pavement of Roads

The Municipality is responsible for Planning, Construction and Maintenance of roads. The entire roads network of our area of jurisdiction amounts to 3465,35km of the total road network only 101.3 km of road is paved and there is still a backlog of 3 364.05km and the total asphalt surfaced streets rehabilitated is 13.6km in Malamulele Town.

5.3.3. Street Blading

The Municipality is performing the functions of street blading in order to open and clear access of roads to the community. Currently the Municipality is providing access roads to Schools, Clinics, Cemeteries and Tribal Authority Offices.

5.3.4. Grading Programme

The grading programme is divided into four clusters which are Hlanaganani Cluster, Vuwani Cluster, Malamulele Cluster and Saselemanani Cluster. One grader is allocated to one Ward for a period of three weeks in is done on a rotational basis to focus on grading of identified critical areas. Upon lapsing of three weeks regardless of whether all critical identified road is finalized the grader is moved to another ward. If it happens that there is a funeral(s) on the same Ward the grader will be assist in opening access to the cemeteries from the affected family.

5.3.5. Potholes

The Municipality is mandated to patch the potholes at Municipal Roads. The Current situation is that most of tarred roads are deteriorated and have defects and they need to be repaired. The repair of potholes is an ongoing activity.

5.3.6. Road Marking

The Municipality is further mandated to mark the Municipality roads. Road marking is crucial to communicate information, warnings, demarcate road the lanes and provide safety for road users. Currently the municipality have marked the entire Malamulele town and the VTS.

5.3.7. Speed humps

The Municipality is also mandated to construct speed humps on roads as a traffic calming measure. Due to student's road crossing and speeding road users we provide speed hump as a safety precaution.

5.3.8. Resources for road maintenance

The Municipality have the following resources

- ❖ 5 x Graders.
- ❖ 1 x Dozer.
- ❖ 1 x Bakkie.
- ❖ 1 x half Truck.
- ❖ 2 x Water tankers.
- ❖ 2 x Pedestrian Rollers.
- ❖ 1 x asphalt cutter.
- ❖ Self-propelled broom

5.3.9. Expanded Public Works Programme (EPWP)

The Expanded Public Works Programme (EPWP) has its origins in the Growth and Development Summit (GDS) of 2003. At the Summit, four themes were adopted, one of which was 'More jobs, better jobs, decent work for all'. The GDS

agreed that public works programmes 'can provide poverty and income relief through temporary work for the unemployed.

The Programme is a key government initiative, which contributes to Governments Policy Priorities in terms of decent work and sustainable livelihoods, education, health; rural development; food security, land reform and the fight against crime & corruption. EPWP subscribes to Outcome 4 which states "Decent employment through inclusive economic growth. "In 2004, the EPWP was launched and is currently still being implemented. The EPWP is a nationwide programme covering all spheres of government and state-owned enterprises.

The EPWP provides labour intensive employment created through the infrastructure sector, social sector, environment sector as well as the non-state sector. These sectors under the EPWP therefore have a dual purpose namely, job creation and upgrading of infrastructure

5.4. NODAL ACCESS

Collins Chabane has four Municipal Nodes namely: Malamulele; Saselamani; Hlanganani and Vuwani. These Nodes are located along roads/development corridors meaning that they are accessed through Provincial roads.

Currently the Municipality in the process of constructing of access roads around the Nodal Areas at:

- ❖ Hlanganani Nodal Area
- ❖ Nwamatatani ring road
- ❖ Mtswetweni to Njhakanjhaka ring road
- ❖ Malamulele Nodal Area
- ❖ Malamulele D internal street
- ❖ Malamulele B internal street
- ❖ Widening of DCO to Malamulele Hospital road

5.5. FREE BASIC SERVICE

The municipality revised its Free Basic Service (FBS) Policy for the purposes of ensuring efficient operations and effective responsibility to the qualifying indigent households. There is a form that indigents should fill to verify the status (Pensioner/ grant) of the people through Ward Councilors and ward committee members. There is no dedicated FBS personnel in the municipality to work with all the FBS issues as a result the register is not always updated. However, reapplication of indigent must be done using the KDOS system to determine those who qualify.

Subject to the availability of funding from the Provincial Government, the policy provides assistance to those indigent households who qualify in terms of the set criteria. A household which has a verified total gross monthly income equal or less than 2 times state pension per month will be classified as indigent and will qualify for financial assistance subject to the completion of the relevant documentation including a sworn affidavit. Total Number of indigents per Free Basic Service for 2023/24 are the following:

- ❖ **105 = indigents with full exemption on Property Rates**
- ❖ **6443 = indigents with 50 kilowatts of electricity per month**
- ❖ **50% of monthly charge for normal residential property**

5.6. WASTE MANAGEMENT

In recognition of this Constitutional which states that obligation, the municipality has to comply with the National Environmental Management: Waste Act 59 Of 2008 (Waste Act) and the National Waste Management Strategy (NWMS).

The municipality provides waste management services which includes waste collection, street cleaning, clearing of illegal dumping sites, and waste disposal. Regular solid waste collection service is provided to business, institutions and households within all proclaimed municipal areas.

5.6.1. Refuse Removal Services

About 3321 households are currently receiving refuse removal services once a week, namely Malamulele A, B, C and D. The service is also rendered daily within the CBD and Municipal Nodal points such as Vuwani, Saseleman and Hlanganani area. All proclaimed areas within the municipality are serviced once a week with a backlog of approximately 4951 households not serviced due to lack of resources and most areas not proclaimed. However, the municipality is continuously running an ongoing formalization and proclamation project of which will eventually lead to extension of refuse removal services to most un-serviced areas.

The Municipality is currently extending refuse removal services to all informal hotspot areas by making provision of a skip bin for refuse collection to one cantered/ designated area within such village. In response to extension of refuse services the municipality purchased 60 skip bins which needs to be place within different villages.

5.6.1.1. Waste Picker COVID-19 relief funds

The National Department of Forestry, Fisheries and the Environment initiated the COVID 19 waste picker relief support programme in order to assist waste pickers who have lost their livelihoods/income during the national lockdown period. The COVID 19 waste picker relief support programme has allocated each waste picker to receive R945.00 (once-off) and Personal Protective Equipment (PPE). CCLM waste division registered 1462 waste pickers within the municipality into the department of forestry, fisheries & environment database system in order to receive a Covid-19 relief fund of R945.00 (once-off) per person and protective clothing.

5.6.1.2. Integrated Waste Management Plan (IWMP)

Collins Chabane Local municipality has developed the IWMP which is adopted by council and endorsed by the MEC as required by the National Environmental Management Waste Act 59 of 2008 and is integrated into the IDP for proper planning and management of waste.

5.6.1.3. Currently Waste Management is operating with the following refuse vehicles:

- ❖ 05 Compactor Trucks
- ❖ 01 Half Trucks
- ❖ 01 TLB
- ❖ 02 Skip bins
- ❖ 02 Bakkies
- ❖

5.6.2. Land Fill Sites

Collins Chabane Local Municipality has already developed Phase 1 and is in the process of completion of phase 2 for waste disposal. A Category B Landfill Site License for Xigalo Landfill Site has been acquired to operate however, the municipality is still on completion phase in terms of the construction of the Landfill Site. The Municipality is currently disposing waste in Thulamela Local Municipality Landfill site, which is a service billed monthly for waste disposal. According to IWMP the municipality will put plans in place to develop two Transfer Station within Hlanganani and Saseleman area.

5.6.3. Environmental Education & Clean Up Campaigns

A continuous program for environmental education and clean-up campaigns as per IWMP is being implemented and more than 12 Environmental education & awareness campaign were conducted within municipal different wards. The division also run a community outreach educational program expanding to schools where community members are encouraged to participate in environmental programmes. A tree planting initiative is also run within the municipality where in about 102 trees were planted in different wards during the previous financial year in partnership with SANPARKS & LEDET.

5.6.4. Recycling Initiatives

The National Waste Management Strategy seek to minimise the waste stream going to landfills, while extracting maximum value from the waste stream at all stages of collection and disposal. Collins Chabane Municipality is frequently conducting a recycling education and awareness program which provides residents an opportunity to create additional jobs, and income for the unemployed. The municipality has an active recycling forum which meets once per quarter to enhance and support recyclers within its jurisdiction. However, 72 women from Collins Chabane different wards were workshopped and trained by PETCO to start their own recycling business and they are all forming part of Municipality recycling database.

5.6.5. Challenges

The potential challenges of urbanization and formalization have given rise to a policy and implementation focus on sustainable development. Collins Chabane Municipality faces a number of challenges in terms of effective refuse removal services to the whole of Collins Chabane local municipality such as:

- ❖ Insufficient budget,
- ❖ Growing population,
- ❖ Capacity,

- ❖ Lack of appropriate refuse removal equipment to service the area.
- ❖ Improper access/ gravel roads to households.

Waste collection in rural areas is not conducted systematically therefore Collins Chabane villages in rural areas constitute a backlog. Collins Chabane Municipality has two transfer stations, transferred from Thulamela Municipality which are currently not operational.

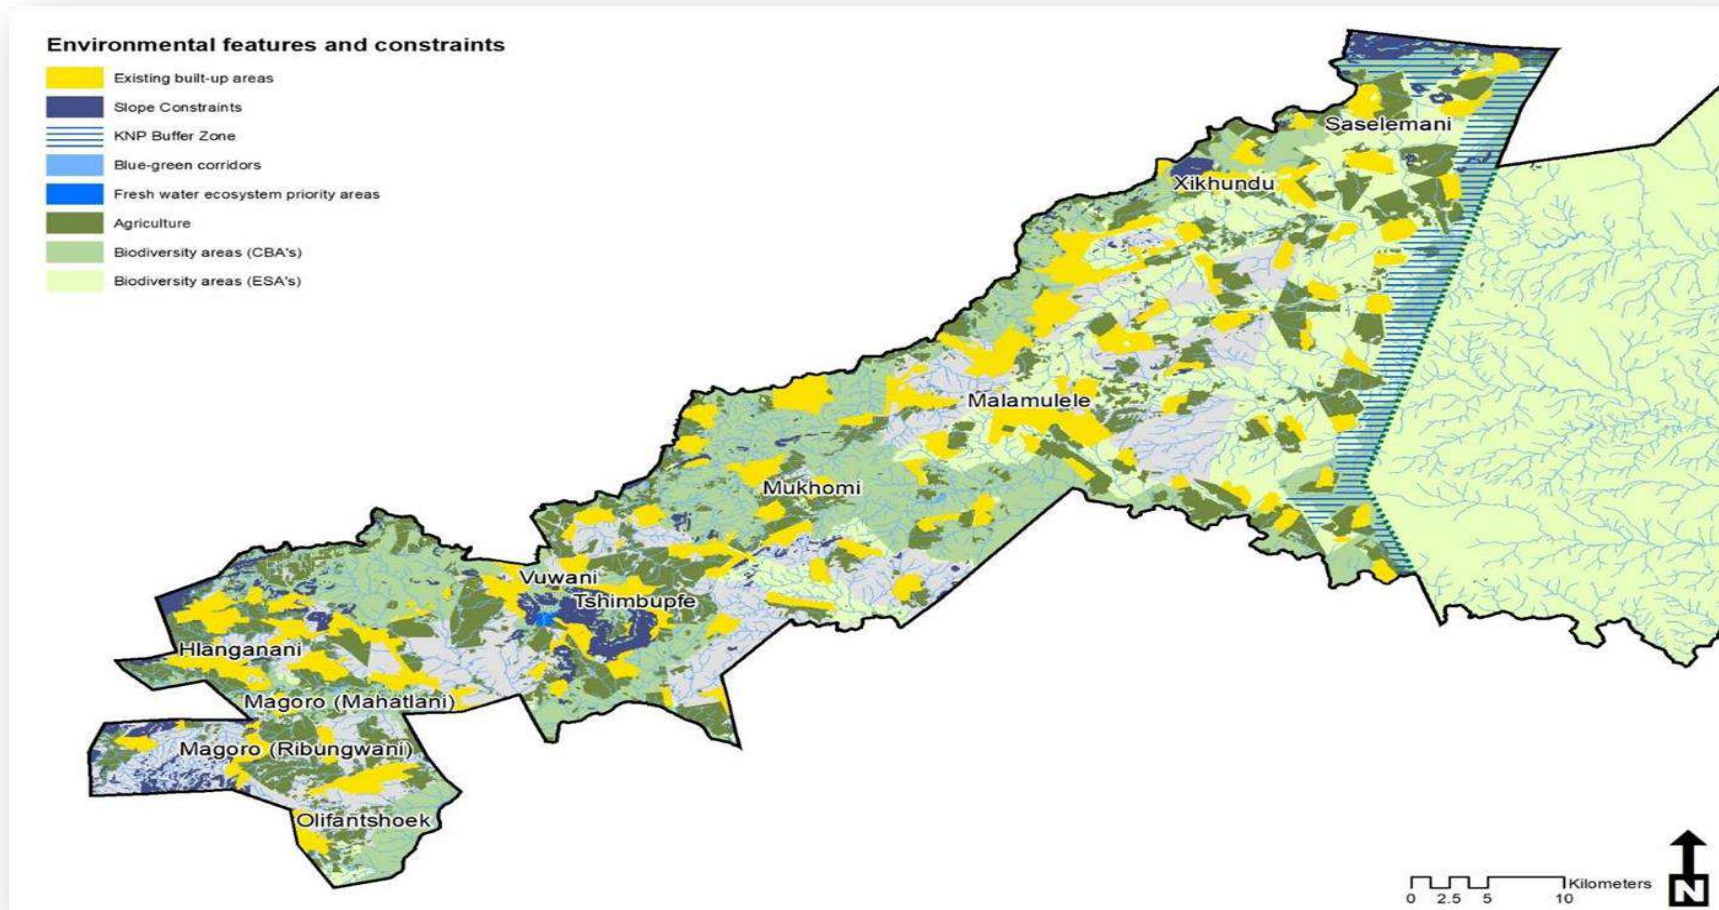

5.7. ENVIRONMENTAL ANALYSIS

Environmental Health Services

The service is not coordinated as an EHP is not appointed within the institution

The map below indicates the spatial representation of the Collins Chabane Local Municipality's environmental features

Figure 5.11.: The spatial representation of the Collins Chabane Local Municipality's environmental features and settlement arrangements

5.7.1. Climate

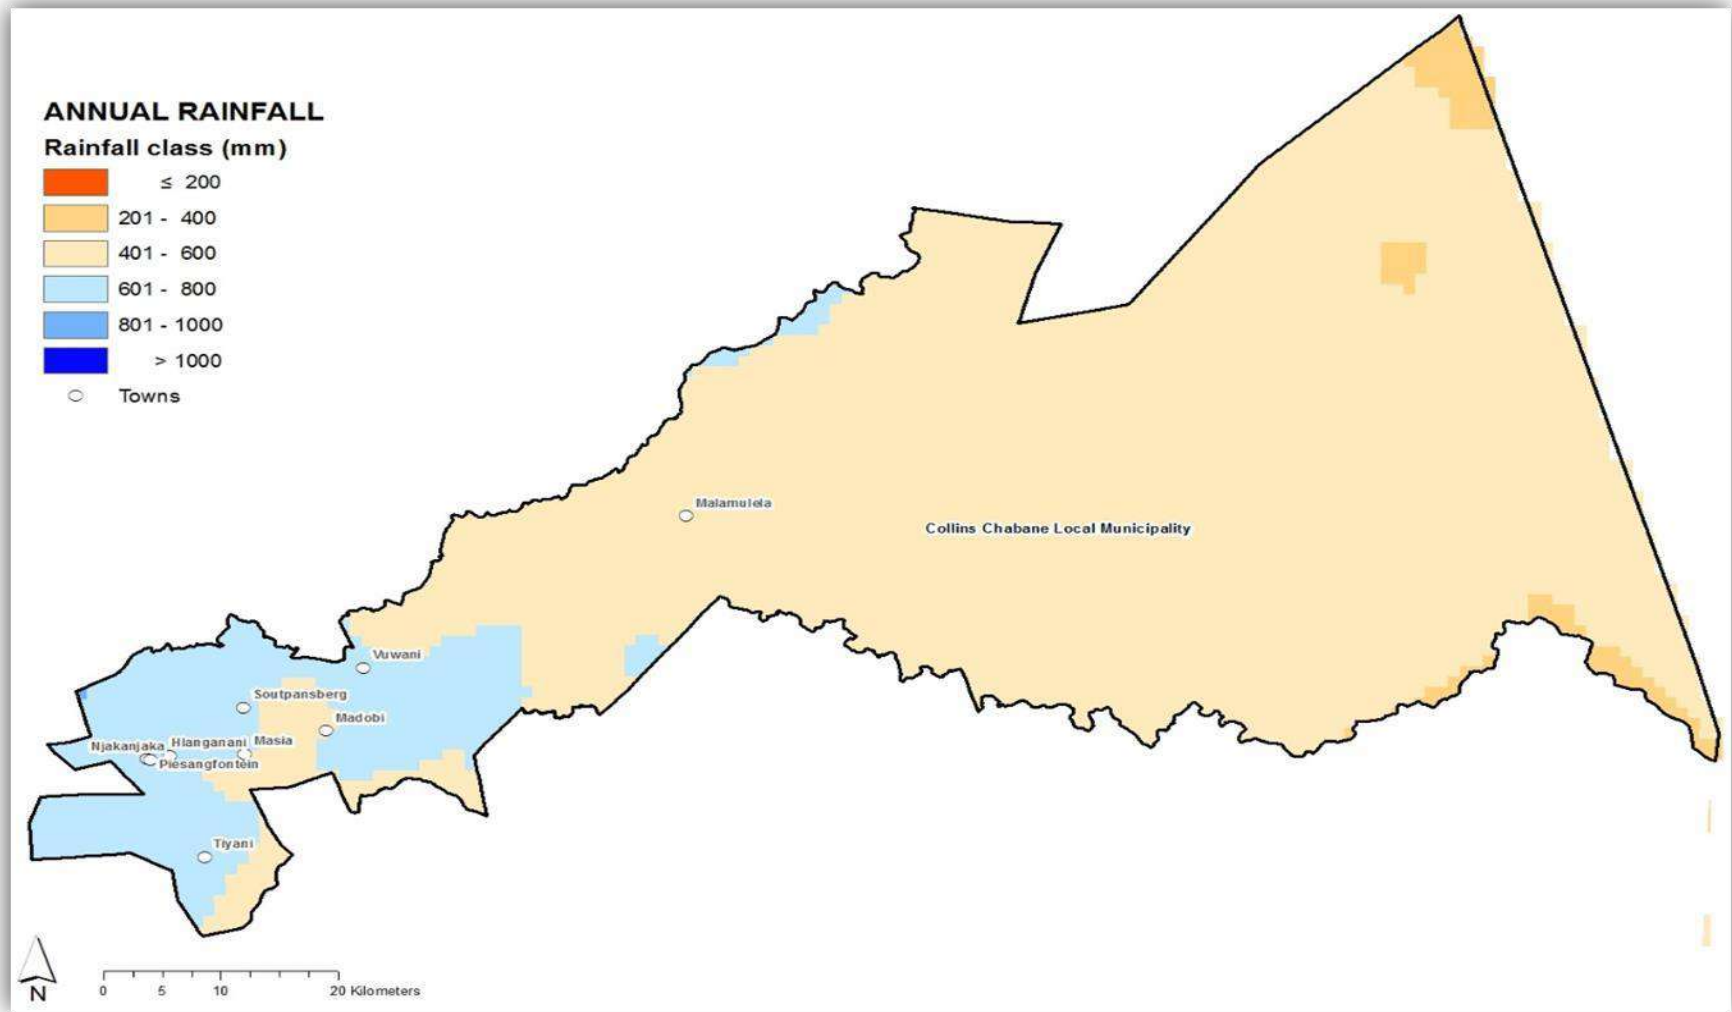

As climate change intensifies, the municipality is becoming increasingly vulnerable to weather-related shock events, in particular, increased heat and decreased rainfall. The municipality greening strategy has the potential to contribute to the achievement of several longer-term climate change mitigation outcomes through carbon sequestration and improved livability. The municipality has plans to make major strides in advancing a renewable energy strategy as part of its climate change mitigation actions, including, amongst others, the promotion of solar- and wind generated energy within the municipality.

Collins Chabane Local Municipality is located in an arid region and it has a very dry subtropical climate, specifically a humid subtropical climate with long hot and rainy summers coupled with short cool and dry winters. The climate here is mild, and generally warm and temperate. When compared with winter, the summers have much more rainfall. The area normally receives about 691 mm of rainfall per year, with most of rainfall occurring mainly during midsummer (WHE, 2016). Large variations are observed for seasonal temperatures; temperature can reach as far as 40⁰c during summer time.

5.7.2. Rain Fall

Rainfall in the Municipality averages between 401 mm to 600 mm annually. The western parts of the Municipality averages between 601 mm to 800 mm a year which is the populated areas of the Municipality.

Figure 5.12.: Annual Rainfall

Source: CCLM SDF (2018)

5.7.3. Climate Change

Collins Chabane Local Municipality like all municipality is also experiencing the global issue called climate change. Besides an increase in average temperature, climate change also causes significant changes in rainfall patterns, and an increase in extreme weather events giving rise to floods and droughts.

Collins Chabane Local Municipality's Environment and Waste Management unit has engaged SALGA Environmental Specialist on development of Collins Chabane Climate Change Mitigation, Response and Adaptation Strategies. SALGA will engage with multi departmental team on determining local climate change impacts, risks and vulnerabilities as well as municipal responsibilities on Climate change.

Water scarcity is now a generic challenge in the Collins Chabane Local Municipality together with the extreme hot weather conditions. Climate effects are also felt by crop farmers and the livestock farmers within the whole Municipality.

Focal areas such as ecosystems, livelihoods, economic activities, infrastructures, and utilities as well as public health and safety will mainstream climate change responses. This will allow for effective implementation of climate change responses on ground and strengthen climate change resilience within the Province. Vhembe District Municipality has also involved its local Municipalities to participate in the development of the District climate change adaptation strategy which is awaiting approval from the council.

5.7.4. Air Quality

The municipality is using the district Air Quality Management plan. Sources of air pollution in CCLM includes industrial activities which include burning coal, oil, and other fuels that causes air pollution, such as clay brick manufacturing, pot manufacturing businesses, fuel stations, charcoal manufacturing, boilers, and wood processing. Other contributors of air pollution are dust fallout at mine such as Fumani gold mine at Mtiti area.

Mobile sources are mostly associated with transportation and internal combustion engines with pollutants being emitted around the path taken. These services include motor vehicles (light duty vehicles, heavy duty vehicles, road dust from unpaved roads. Vehicle tailpipe emission is the main contributors of hydrocarbons. Residential and commercial sources include emission from the following sources categories: wood stoves, backyard burning, households heating. And commercial sources include emissions from the following categories: Land clearing burning, unregistered restaurants, dry cleaning, building construction and demolitions.

5.7.5. Land Cover / Land Capability

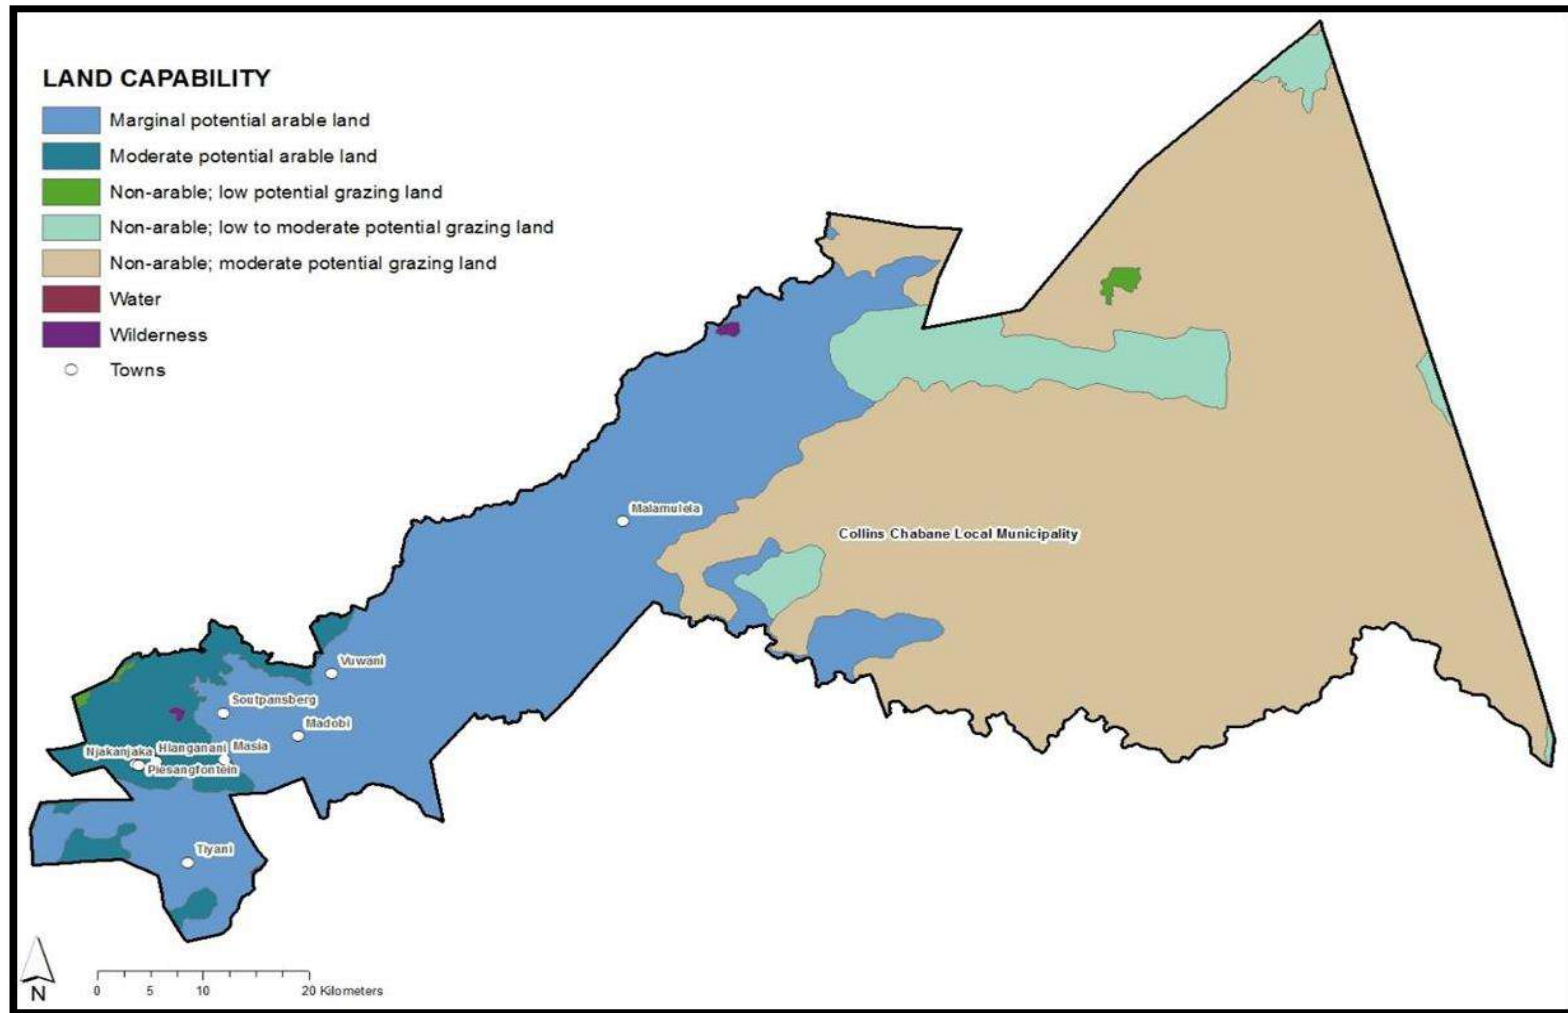

Collins Chabane area has amazing biological diversity of flora and fauna; this rich biodiversity can be attributed to its biogeographical location and diverse topography. The Municipality falls within the greater Savanna Biome, commonly known as the Bushveld with some small pockets of grassland and forest Biomes. There are large extensive areas within the Vhembe District that area conservancies' areas among others the Natural Protected areas within the District includes the Kruger National

Biosphere Reserve provides a habitat to a diverse number of species including those that are on the brink of extinction. The Biodiversity of CCLM is a strategic resource in nature which provides the District communities with a lot of potential mostly in rural areas. It provides materials for shelter, food, fuel wood as well as medicinal plants (LEDET, 2006). However, the map below shows that the western part of the Municipality consists of land with moderate potential for agricultural production. The eastern part of the Municipality has potential grazing land which is unsuitable for growing of crops.

Biodiversity & Conversation

The SDF is a legally binding spatial framework that promotes sustainable environmental, economic and social development in a municipality. CCLM Municipality has developed maps termed Spatial Development Frameworks (SDFs) which is a plan that outlines the desired spatial development pattern in a municipality. The municipality is also making use of Vhembe Bioregional Plan, as a municipal level version key informant on biodiversity, and has plans to develop biodiversity by-law.

Figure 5.13.: Land Capability

Source: CCLM SDF 2018

5.7.6. Hydrology

Collins Chabane Local Municipality has a moderately inadequate supply of both ground and surface water. The area comprises of few catchments areas which are stressed by high demand of water for development activities such as agriculture and human consumption. Water management within the Municipality faces the following challenges: imbalance between the supply and demand for water, alien invasion, and inappropriate land uses in the river valley, the impact of fertilizers and pesticides, inadequate monitoring, poorly managed sewage systems, high concentration of pit latrines and droughts. Luvuvhu and Shingwedzi are the main rivers which are used to provide water to the population of Collins Chabane Local Municipality. There are also variety of wetlands within the Municipality, amongst them include the Makuleke wetland which is one of the RAMSAR recognized wetlands in the entire Limpopo. The most prominent feature within the Makuleke wetland include the riverine forest, riparian floodplain forest, and floodplain grasslands, river channels and flood-plains.

5.7.7. Geology

Collins Chabane Local Municipality area is unique due to its geological formations (predominantly sandstone). Collins Chabane Local Municipality has a fairly complex geology with relative high degree of minerals, and the minerals are found in dusters in varying concentration. The geology of the region comprises of Archean aged, granite-green stone terrain of the northern extremity.

5.7.8. Geomorphology

Geomorphology strongly controls land surface, hydrology and ecosystem. Geomorphic features observed in Collins Chabane Local Municipality are plains, low Mountain, and lowlands. The landscapes have been carved out by the meanderings and erosion activities. The soil in this region is as a result of Soutpansberg group of sandstones and smaller amount of conglomerate, shale and mostly basalt. The region also consists of deep sands to shallower sandy litho-sols, with a few limited areas displaying B-horizons soil properties.

5.8. HEALTH AND SOCIAL DEVELOPMENT

5.8.1. Health Services

According to World Health Organization (WHO) set of standards, 1 professional nurse is responsible for 40 patients, 1 health facility (clinic) should be found within a 5km radius. The Municipality has a radius of 5 467 216 m² which means that there is a huge backlog of Health facilities. Collins Chabane Municipality has 1 hospital, 3 health care and 32 clinics. There is a shortage of childhood centers, old age facilities and access to social grants are major challenges. The prevalence of Malaria in Vhembe District and Mopani, post a huge health risk for the Municipality.

5.8.1.1. Health Status

The table below indicates the Total death rate is 10360 of death within the Jurisdiction of the Municipal. According to figure 2.6.1, there is high mortality in female than male in Collins Chabane Local Municipality.

COVID-19 pandemic

The municipality like any other in South Africa, faces an unnoticeable challenge that has engulfed the entire globe, the COVID-19 pandemic, which has become a power to reckon within our everyday livelihood. Safe to acknowledge that COVID-19 brought imbalances and predicaments. The pandemic has fashioned a quicksand to the world and has diverted attention from critical service delivery programs, to a balance of life and economic survival. The result of the above meant a lot of sacrifice to both human and government in ensuring a critical paradigm shift in our livelihood.

COVID-19 pandemic did not only affect the municipality negatively but assisted the municipality to develop strategies to deliver services to the communities and to resume municipal duties; amongst those strategies are: encouraging people to work at home, conducting meeting via zoom, coming to work in rotation to keep offices running.

Even after the full functioning of the offices we learn a lot, even today we adopted the some of COVID-19 regulations such taking hygiene seriously (involving washing hands), avoiding direct conduct, wearing face mask when people have flu.

5.8.1.5. PEOPLE WITH DISABILITIES

As illustrated by figure 2.8.1, indicates that Collins Chabane Local Municipality has a very low number of disable people residing in the area. However, it indicates that the number of people who find it difficult to care for them self is more than five thousand (5000). More than seven hundred (700) people cannot take care of themselves. This indicates that the Municipality should plan for home base care centurms.

5.8.1.6. Health challenges

The quality of health care in Collins Chabane Municipal area is in a poor state. The following are some of the health challenges that our communities continue to face on a daily basis:

- ❖ Shortage of medication and health care professionals;
- ❖ Communities travel long distance to access health facilities,
- ❖ High number of defaulters in HIV/ AIDS AND TB Patients
- ❖ Clinics that operate 24 – hours are unavailable,
- ❖ Poor or bad roads to access some of the health facilities.
- ❖ No sheltered structures in some mobile clinic visiting points.
- ❖ Shortage of Professional and support staff.
- ❖ Infrastructural challenges compromise the provision of quality primary health care services.
- ❖ High level of crime where armed robbery and burglary occur in health facilities which affect the provision of 24 hours' services to the community.
- ❖ Communal water not connected to the clinic and clinic depends on water from boreholes.

5.8.2. Social Services

The Municipality has appointed one (01) Social Services Manager, with one (01) Disaster Management Coordinator, one (01) Horticulture Supervisor and (09) nine Horticulture General Assistants whose main functions are to:

- ❖ Manage & maintain parks,
- ❖ Bush clearing along the roads and within Municipal properties
- ❖ Planting of crops, trees, flowers and lawn
- ❖ Tree pruning

Table 5.11.: Social Grant

Table 5.11, gives an overview of the social grant dependency in Collins Chabane Local Municipality area. The high number of child support grant indicates a high fertility and unemployment rate.

5.8.2.2. Social Development Infrastructure

According to service standard, all service offices or points must be within a distance of twenty (20) km radius. One Social welfare practitioner should serve a population of 3,000 (1:60) children in a particular service point. Social assistance applications should be complete within 8 hours – more realistic 45-56 hours.

Table 5.8 below indicate 25 numbers of victim empowerment canter with a backlog of 02 and total number of 82 drop in canter with a backlog of 16.

- ❖ Bush clearing along the roads and within municipal buildings
- ❖ Planting of crops, trees, flowers and lawn
- ❖ Debushing all over Collins Chabane Municipality using equipment's such as Brush cutters, hoe tool, spade, lashers etc...
- ❖ Weeds removal on Paving
- ❖ Tree pruning

5.10. MANAGEMENT OF SPECIAL PROGRAM SERVICES

According to Section 73(1) of the Municipal Systems Act, Act 32 of 2000 requires municipalities to give effect to the provisions of the Constitution to give priority to the basic needs of the local community and to promote its development. The Act, Section 73 (2) further states that municipal services should be equitable, accessible and be provided in a manner that is conducive to the prudent, economic, efficient and effective use of available resources.

Collins Chabane Local Municipality has a Special Programs Unit which is located within the Community Services Directorate. The Unit address issues that affect previously deprived and marginalized groups of the society, such as women, children, youth, people with disabilities and older persons as well as people living with HIV. The forums for the targeted groups were established which includes the Local Aids Council.

There are eight special programs within the Municipality: Disability forum, Gender forum, Elderly forum, Aids Council, Women Council, Moral Regeneration, Traditional Healers, Youth Council & Early childhood.

5.10.1. SPECIAL PROGRAMS

- ❖ Shortage of sporting facilities
- ❖ Shortage of libraries
- ❖ Lack of developed recreational parks
- ❖ Lack of public open spaces
- ❖ Lack of interest in cultural activities
- ❖ Shortage of Staff

5.12. DISASTER MANAGEMENT

The section has one Disaster Management Coordinator who deals with all Collins Chabane Local Municipality Disasters.

5.12.1. Disaster Advisory Forum

A Disaster Advisory Forum was launched on September 2018. It focuses on all disaster issues and is constituted by various structures such as EMS, Fire Fighters, and Police to mention a few.

5.13. EDUCATION

According to standards of the department of Basic Education, a school should be located within a radius of 5km from the community it serves and the walking distance to and from school should not exceed 10km. Despite the 153 schools located within in the Municipal area, shortage of schools is still a grievous concern. Provision of services such as water, sanitation and electricity in school is still a challenge.

5.13.1. EDUCATION PROFILE

Lack of Education is not only one of the main factors that contribute to unemployment, but is a key indicator of development in general. Collins Chabane Local Municipality has a high level of illiteracy, however it further suggests that despite the high level of illiteracy, people with Post – Higher Diploma/ Degrees are more than 3000.

There are 132 Adult Basic Education & Training (ABET) centers and 1 University. The rendering of quality education in the district is negatively affected by dilapidated and shortage of classrooms and administration blocks, lack of electricity, dilapidated and shortage of toilets.

5.13.2. Education Norms and Standards

According to the Education Norms and Standard, a school should be situated within a radius of 5km from the community it serves and the total walking distance to and from school may not exceed 10 km. Learners who reside outside the determined feeder zone may be provided with either transport or hostel accommodation on a progressively phased and pro-poor basis.

The norms and standard for teaching is the Ratio of one (1) Teacher per fourth (40) Learners in Primary and one (1) teacher per thirty-five (35) learners in secondary school, and every learner should have access to minimum set of text books.

Education service in the municipality are negatively affected by the following problems: older persons are not participating actively on ABET programme, violence, burglary, vandalism and gangsterism, management of school finance, none or late submission of Audited statements and none compliance to prescripts.

National Schools Nutrition Programme is carried out in all primary schools in the district. All Q1& Q2 Primary Schools & all Q1 Secondary schools are benefiting from the National Schools Nutrition Programme. All Q1, Q2 and Q3 are no fee schools.

The municipality has identified with a great concern the high number of 569 schools within the area which are still utilizing pit toilets as a sanitation facility. This challenge can be resolved in the following manner:

4. Educate children about toilet use
5. Employ sanitation facility management teams
6. Build proper water toilet facilities.

5.13.2.1. National School Nutrition Programme (NSNP)

The main objectives are to provide nutritious meals to targeted learners for all school going days in a financial year, facilitate the establishment of food production projects through capacity building workshops and to promote healthy living style and nutrition education through workshops on food safety, hygiene and healthy living habits. Challenges are:

- No proper infrastructural facilities in schools for food
- Storage and preparations areas, shortage of water supply
- Fencing in schools that delay implementation

CHAPTER 6: LOCAL ECONOMIC DEVELOPMENT

Local Economic Development is an approach towards economic development which allows and encourages local people to work together to achieve sustainable economic growth and development. This brings economic benefits and improved quality of life for all residents in a local municipal area. LED is also a “process by which public, business and non-governmental sector partner's work collectively to create better condition for economic growth and employment generation”.

As a section, LED is intended to maximise the economic potential of all municipal localities throughout the country and to enhance the resilience of the macro-economic growth through increased local economic growth, employment creation and development initiatives within the context of sustainable development. The 'local' in economic development points to the fact that the political jurisdiction at a local level is often the most appropriate place for economic intervention.

With the above mentioned facts, Collins Chabane Local Municipality's strived to support; encourage and/or to implement programmes to enrich its local people through the following initiatives: Cooperative(s) Support Grant Programme; Community Work Programme (CWP) and Extended Public Works Programme (EPWP). The programmes has been advanced as a critical solution for poverty alleviation; unemployment and previously disadvantaged individuals in most of Collins Chabane Local Municipality's nodal points.

6.1. CCLM CO-OPERATIVES SUPPORT GRANT PROGRAMME

The Cooperatives Support Grant Programme have been implemented by the municipality, to address the socio- economic challenges within the Collins Chabane Local Municipality. However, it is urged to create positive hype to job creation locally. The support makes a significant stride in terms of job creation and the elimination of poverty among communities. Below are some of the existing Cooperative entities amongst others that are supported by the municipality.

Statistically, 92.9% depicts the employment created by Co-Operative entities within Collins Chabane Local Municipality whereas 7.1% are recorded as casual employees within the Cooperative entities throughout the CCLM nodal points.

Figure 6.1.: Cooperative Entities

Below are some of the existing Cooperatives supported by Collins Chabane Local Municipality's Support Grant Programme

- Ward based co-ops promote collaborative entrepreneurship and economic growth. Cooperatives reduce individual risk in much needed business ventures and promote culture of shared productivity, decision making and creative problem solving.
- The Municipality has supported eleven (11) ward based cooperatives by buying equipment's and those equipment provides the much needed help to the co-ops and business in general

6.2. SMME SUPPORT AND TRADE DEVELOPMENT

6.2.1. BUSINESS EXPO

The endeavor to continuously support local SMMEs is gaining momentum, the Municipality created a platform that is conducive for entrepreneurship development and created opportunities for small businesses to succeed by organizing business expo and exhibitions. More than thirty spaza shops were supported with speed point (mobi-cell) to make it easy to do business particularly in rural areas. More than fifty spaza shops were supported with stock to the value of seven thousands rands. More than fifty (50) exhibitors were able to participate at the business expo and managed to show case their products offering. The following pictures highlights the significant of the flea market at the information center. The Municipality has signed a memorandum of understanding with LEDA and still waiting for the NYDA and SEDA to complete the process.

The Municipality has also initiated business registration processes which is contributing much to the revenue base of the Municipality, business registrations assist in regulating compliance and through it the Municipality is able to gauge whether there is growth in business growth.

6.2.2. TOURISM

Tourism contributes 8.6 % to the South African economy and provides for 9% of total employment within the country. The promotion of local tourism will significantly contribute to the much needed growth of the local economy. The National Department of Tourism in collaboration with the Municipality created a tourism engagement session that benefited tourism establishments within the jurisdictions of the Municipality and this contributed to the increase in the number of graded establishments.

TOURISM INFORMATION CENTRE

6.2.3. BUSINESS REGISTRATION AND COMPLIANCE

- The Municipality conducted several LIBRA campaigns and that contributed to the increase number of business that registered with the Municipality.
- Since the inception of the business registration process more than 3500 business were issued business licenses and more than seven hundred were issued with temporary business permits.
- Significantly, the increased number of businesses that are registered contributes to the revenue generation of the Municipality.
- The Municipality has managed to conduct two joint business inspection operations. The operations were as a result of collaborations between the Municipality, SAPS and SA immigration, the operations were successful as it led to the arrests of foreign nationals and the removal of unpermitted goods from the shelves.

6.2.4. TRAINING AND DEVELOPMENT OF SMME's

- Training and workshops helps small businesses to transition from informal to formal sector.
- More than 125 small businesses were trained on various programs such as project management, financial management, Digital entrepreneurship, SARS compliance.
- Training and workshops were made possible through the assistance of the following institutions: Shingwedzi TVET, SEDA, NYDA, Limpopo University, Vhembe Treasury department.

6.2.5. COMMUNIYT WORKS PROGRAMME

The primary purpose of the CWP is to create access to a minimum level of regular and predictable work opportunities for the unemployed and those who need them, targeting areas of high level of poverty and unemployment, where sustainable alternatives are limited and likely to remain so for the foreseeable future. In this process the CWP aims to achieve the following:

- Predictable basic income
- Employment safety net
- Skills enhancement
- Public assets and services
- Community Development

6.2.6. INFORMAL TRADE DEVELOPMENT (STALLS)

- In response to the strategic resolution with regard to informal trade development the municipality has undertaken to continue to support street traders by constructing ten (10) market stalls at Hlanganani and Xithlelani. The ten (10) market stalls will accommodate twenty hawkers.
- The construction of the Market stalls contributes significantly to the increase of economic activities in all the Municipality nodal points. Currently the Municipality main stream economy depends on the informal sector.

6.2.7. PARTNERSHIP AND STAKEHOLDERS ENGAGEMENT

The municipality relies on the relationships with the progressive stakeholders and forums, are meant to create a mutual relationship between the Municipality and the broader society. The Municipality facilitated formation of the following forums:

- Led Forum
- Agricultural Association
- Hawkers Association
- Taxi Association
- Tourism Association

6.3. IMPLEMENTATION OF EPWP PROJECTS

The Expanded Public Works Programme (EPWP) is a nation-wide Government Programme aiming at drawing significant numbers of unemployed into productive work, so that they increase their capacity to earn an income. The Expanded Public Works Programme (EPWP) was initiated in 2004 with the primary goal of reducing unemployment across South Africa. The EPWP provides labour intensive employment created through the infrastructure sector, social sector, environment sector as well as the non-state sector.

These sectors under the EPWP therefore have a dual purpose namely, job creation and upgrading of infrastructure. The persistently high rate of unemployment in South Africa is one of the most pressing socioeconomic challenges facing the Government and Collins Chabane Local Municipality is not immune to these challenges. High youth unemployment in particular means young people are not acquiring the skills or experience needed to drive the economy forward.

Therefore, job creation and skills development remains the key priorities of the Collins Chabane Local Municipality. EPWP targets are set annually by the National Government, which the Municipality is expected to achieve. With the introduction of the EPWP phase III, the Municipality has performed well in terms of job creation, by achieving their target for the first year. Currently most jobs are created through Capital projects as well as Operational projects, and quite a significant amount of jobs are created through Water and Sanitation, Waste Management, Roads and storm water, Environment Management and Transportation Projects.

Collins Chabane is participating in EPWP Incentive grant programme. In 2022/2023 financial year the programme created 548 jobs. Electrification of Collins Chabane Local Municipality's communities, and also Road Construction namely: DCO-Malamulele Hospital Road Construction, Mtswetweni/ Njhakanjhaka Ring Road; N'wamatatani Ring Road whereas Electrification community work is done for Menele and Mavambe communities together with infrastructure maintenance.

6.3.1. EPWP is divided into the following sectors

- ❖ Infrastructure-the sector is responsible for the maintenance of infrastructure and related projects
- ❖ Environmental and Cultural sector-the sector is responsible for town cleaning, waste collection, cemeteries cleaning and parks beautification
- ❖ Social Sector-the sector is responsible for the HIV programmes, Home-based care and security services

6.4. LOCAL SKILLS BASED

Skills-based is the practice of employers setting specific skill or competency requirements or targets. Skills and competencies may be cognitive (such as mathematics or reading) or other professional skills, often commonly called "soft" skills (such as "drive for results" or customer service).

The fact that the informal market is able to generate employment that is more than 50% in sectors such as trade, construction and manufacturing signifies huge potential for growth in CCLM. It further indicates that the economy in CCLM will not take long to boom should it stimulated with a good catalyst in a form of capital injection in sectors such as construction, manufacturing and trade (tourism and retail). Unemployment in CCLM was estimated at 20,41%, which is lower than the 27,1% National unemployment rate in 2017.

Figure 6.2.: Employment Sector

The graph shows both the formal and informal employment sectors. However, it shows that the highest employment sector offers community services. It is then followed by trade indicating that the Municipal trade industry must also be strengthened for it generate most jobs for the community. Agriculture also play a vital role in food production and employment though it is affected in none rain climate conditions.

The informal sector also plays a vital role on the Municipal economic grid. A high number of people is recorded on the trade industry being the major contributor of jobs and subsistence. Construction is also role player of creating employment in the informal sector followed by community services.

6.8. HOUSEHOLDS BY INCOME

This table below shows the number of households by income. A highest number of 13,100 households are earning for R30 000 - R42 000 when only 12 households are earning for R0 - R2400.

CHAPTER 7: MUNICIPAL FINANCE MANAGEMENT AND VIABILITY

7.1. FINANCIAL VIABILITY

7.1.1. Legislative Framework

The finances of the Collins Chabane Local Municipality are regulated by the following legislations:

- ❖ Local Government: Municipal finance Management Act No 56 of 2003.
- ❖ Local Government: Municipal Property Rates Act No 6 of 2004.
- ❖ Division of Revenue Act.
- ❖ Municipal Finance Management and mSCoA Circulars issued by National Treasury.

Furthermore, the budget related policies of the municipality are taken into consideration with preparing and implementation of the budget to ensure financial sustainability.

7.1.2. Overview of Budget funding

Collins Chabane Local Municipality annually prepares the Medium-Term Revenue Expenditure Framework (MTREF) budget that is informed by the annual review of the Integrated Development Programme (IDP). The Budget is prepared in terms of Chapter 4 of the Municipal Finance Management Act (MFMA).

Section 17 of the MFMA requires that an annual budget must be a schedule:

- ❖ Setting out realistically anticipated revenue for the budget year from each revenue source.
- ❖ Appropriating expenditure for the year under different votes of the municipality.
- ❖ Setting out indicative revenue source and protected expenditure by vote for the two financial years following budget year.

In the preparation of 2024-2026 MTREF budget, the current year's budget and interim performance for the period ended February 2024. Furthermore, the following factors were also considered.

- ❖ Line item budgeting
- ❖ Incremental budgeting
- ❖ Zero-based budgeting
- ❖ Programme budgeting and
- ❖ Performance budgeting.

Collins Chabane Local Municipality continued to report a positive cash flow from the 2016/17 financial year to date which was informed by the systems that have been put in place in the budget administration of the municipality. The budget of the municipality is divided into the revenue, operating expenditure and capital expenditure budgets and will be explained individually.

7.2. BUDGET AND TREASURY OFFICE

The Municipality has established Budget and Treasury Office as required by Section 80 of the MFMA. The department is presently led by the Chief Financial Officer with five managers in each unit, namely; Asset Management, Budget and Reporting, Expenditure, Revenue and Supply Chain Management units. The Municipality has approved all budget related policies as required by Municipal Budget and Reporting Regulations, however, standard operating procedures are still under review. The mSCOA regulations prescribes the uniform recording and classification of municipal budget and

financial information at a transaction level. Compliance by municipalities to Regulations by 01 July 2017. CCLM established the mSCOA steering committee, mSCOA road map, Budget Management, AFS preparations.

7.5. SUPPLY CHAIN MANAGEMENT SECTION

To enhance compliance with SCM Regulation 26 for Committee System for Competitive Bids, the following committees were established:

- ❖ Bid Specification Committee
- ❖ Bid Evaluation Committee
- ❖ Bid Adjudication Committee

To promote Good Governance, members of the committees are appointed while considering Section 117 of the Act. Furthermore, the SCM Code of Conduct was also circulated to all internal stakeholders.

Challenges

Lack of training for bid committees

Lack of confidentiality

Lack of personnel

Delays on appointment processes (Committees)

The municipality is still experiencing challenges of late appointments and sitting of bid committees. This has resulted in delayed appointments of service providers causing the Municipality not meet its targeted goals as per Service Delivery Budget Implementation Plan (SDBIP). Furthermore, there is generally lack of knowledge by bid committee members in leading to wrong bid specifications been submitted. From 2016/17 to 2022/23, the Municipality has cumulatively incurred:

- ❖ Unauthorised expenditure reported of R 273 061 863
- ❖ Irregular expenditure of R 15 192 430
- ❖ Fruitless and wasteful expenditure R 919 019

7.6. BUDGET AND REPORTING SECTION

The Budget and Reporting section is comprised by the manager and two accountants. The Municipality has submitted all its section 71 reports for the period ending December 2022. There are however still challenges of accuracy of the data strings as required by the Municipal Standard Charts of Accounts (mSCOA) and Schedule C.

7.7. BUDGET RELATED POLICIES

The Municipal budget and Reporting Regulations requires the municipality to submit to council with the Budget, budget related policies. The following policies were revised and submit for approval by council.

- ❖ Supply Chain Management Policy
- ❖ Budget Policy
- ❖ Virement Policy
- ❖ Tariff Policy
- ❖ Rates policy
- ❖ Investment and Cash Management Policy
- ❖ Indigent Policy
- ❖ Credit Control Policy
- ❖ Asset Management Policy
- ❖ The municipality has appointed a service provider to finalize and ensure the gazetting of the by-laws.

7.8. ASSETS MANAGEMENT SECTION

The Municipality has established the Asset Management section as per approved organizational structure. There is a manager responsible for asset management however some of the asset management functions are been outsourced. As much as the Municipality's asset register is GRAP compliance, the asset register is mainly updated at year end.

Challenges

Lack of personnel

Decentralisation of fleet management and inventory section

7.9. EXPENDITURE MANAGEMENT SECTION

The Municipality has established the expenditure management unit presently having three officials, the manager and two accountants. Generally, the expenditure management section is functioning well, however, there are still challenges on payment of service providers within 30 days as required by section 65 of the MFMA. The fruitless and wasteful expenditure has increased from R814 298 in 2018/19, R914 414 in 2019/20 and R919 019 in 2020/21 financial years. These represent an increase from 2018/19 to 2019/20 financial year by 12.9% and a further increase of 0.5% from 2019/20 to 2020/21 financial year.

Challenges

Non-compliance to section 65(2) of the MFMA which states that all monies owed to the municipality be paid within 30 days of receiving the invoice or statement.

7.10. MSCOA

Collins Chabane Local Municipality is transacting on mSCOA. Reporting remains a problem and is a process to embark on in the 2022/23 financial year to ensure full compliance with mSCOA reporting requirements. There are still some modules that are not functional on the municipal financial system.

7.11. SOCIAL PACKAGE / INDIGENTS

The municipality has approved an indigent policy which makes it possible for provision of Free basic service for qualifying households as determined by council from time to time. All qualifying indigents make an application to the municipality personally or through targeted method used by councilors and ward committee members. Over **7000** indigents registered. The qualifying indigent's households do not pay property rates, and refuse removal and receive 50 kWh per month from the municipality through Eskom. A budget is made available yearly through the equitable share allocation for the provision

of Free Basic Services. A total number of **105** indigents have full exemption on Property Rates, **6443** indigents with 50 kilowatts of electricity per month and 50% of monthly charge for normal residential property.

7.12. MUNICIPAL FINANCE MANAGEMENT AND VIABILITY CHALLENGES

Table 7.3.: Finance Challenges
Shortage of staff in Budget and Treasury Office
No standard operating procedures

Low collection rate
Incomplete billing
Wrong postal or not postal address
Increased debtors book
Revenue enhancement strategy not implemented
Incorrect data strings
Low percentage of budget spending

Third parties schedule not send on time after payment
Incurring of fruitless and wasteful expenditure
Lack of knowledge of SCM and PPPFA regulations by bid committee members
Increased irregular expenditure
Late submission of procurement plans
Submission of incorrect specification
Late sittings of bid committee members

CHAPTER 8: GOOD GOVERNANCE AND PUBLIC PARTICIPATION

Good governance is at the heart of the effective functioning of Municipalities. One of the objectives of Local governance is to encourage active citizenry in the matter of local government hence Local is everyone's business. One of the key pillars or performance area Back to Basic is Good Governance, Public Participation, and Ward Committee.

The focus of this pillar is to assess the running of council, establishment and functionality of the ward committees, assess the extent at which Public Participation is encouraged, and the level of corporate governance in the Municipality, therefore Municipalities are expected to use various form of systems in order to involvement communities in the matter of Local government.

8.1. COUNCIL AND COMMITTEES

The Council had adopted the Corporate Calendar for 2023/2024 which had to be used as a guide in all its Council Meetings and Section 79 Committees and other Council Committees. 36 Ward Committees have been established and are executing their responsibilities and/or functions. They meet monthly and reports to Speaker's Office. EXCO meetings are held as per the Corporate Calendar. Financial Misconduct Disciplinary Board has been established and appointed by Council.

8.2. PUBLIC PARTICIPATION AND COUNCIL SUPPORT

According to Section 16 (a), a municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must encourage, and create conditions for, the local community to participate in the affairs of the municipality.

The relationship between the Municipality and its stakeholders is very important. Stakeholders are not only local people. They include Sector Departments and their agencies, as well as people, organizations and institutions. Stakeholders include people and institutions that impact directly and indirectly on the organization, and they can include people who may not even be aware that they have a stake in the management of these organizations.

The primary aim of stakeholder *identification* is to name all those who could and should have a stake in a planning and management process.

The following is a list of key stakeholders for Collins Chabane Local Municipality

-  Traditional Authorities
-  Community
-  Business Sector
-  Traditional Healers
-  Government Departments
-  Education Sector
-  Non-Governmental Organisations
-  Transport Sector
-  Labour Unions
-  Financial institutions
-  Farmers
-  Civic organisation
-  Religious groups

8.3. IMPLEMENTATION OF THE COMMUNICATION STRATEGY AND POLICY

Communication is an important element of Good Governance. It is through communication that the communities and other stakeholders are informed about the activities, challenges and achievements of the municipality and thereby getting empowered to participate in the affairs of the municipality. Section 18(a) of the Municipal Systems Act (Act 32 of 2000), a municipality must communicate to its community information concerning the available mechanisms, processes and procedures to encourage and facilitate community participation. It further stresses the importance of communication between the Council and its communities.

The Municipality is currently implementing both the Communication Strategy and Communication Policy. The Communication forums and Mayor's Imbizos are organized on quarterly basis. The issuing of Newsletters was halted due to cost containment measures as directed by the National Treasury, however attempts to re-issue the news letters have been made.

Due to the Covid 19 pandemic, the municipality is taking advantage of new electronic and social media channels as catalysts to improve the manner in which information reaches communities and other stakeholders. These include communication through mobile phones technology in the form of **WhatsApp, Virtual Meetings, SMS, chat groups, Radio, Facebook, Twitter, and YouTube etc.**

8.4. RISK MANAGEMENT

Risk Management is one of Management's core responsibilities in terms of section 62 of the Municipal Finance Management Act (MFMA) and is an integral part of the internal processes of a municipality. It is a systematic process to identify, evaluate and address risks on a continuous basis before such risks can impact negatively on the service delivery capacity of a Municipality.

The Risk Management Policy, Risk Management Strategy and Risk Management Committee Charter were reviewed and approved. The municipality has developed antifraud and corruption strategy in 2022/2023. The Risk Implementation plan was submitted to the Risk Management Committee and approved by the Accounting Officer. The Strategic, operational, Fraud and mSCOA registers for the 2022/23 financial year were developed. Quarterly Risk Management reports were submitted to Risk Management Committee, Audit and Performance Committee

10. Fraudulent activities and claims

8.4.2. Risk Management Committee

The municipality has appointed the Chairperson of the Risk Management Committee in April 2019. The Risk Management Committee had four meetings.

The Risk Management Committee is comprised of the following members:

-  Chairperson- Independent person not in the employee of the municipality
-  All Senior Managers-Members
-  Manager: Risk Management and Security- Secretary

8.5. INTERNAL AUDIT

According to chapter 14, section 165 of the Municipal Finance Management Act, 2003 (Act 56 of 2003), each municipality and each municipal entity must have an internal audit unit. Collins Chabane Local Municipality has a fully functional Internal Audit Unit established in terms of the Act. The primary objective of Internal Audit division is to assist the Municipal Manager and the Audit and Performance Audit Committee in the effective discharge of their responsibilities. Internal Audit provide them with independent analysis, appraisals, recommendations, council and information concerning the activities reviewed, with a view to improving accountability and service delivery.

Section 62(1) (c) (ii) of the MFMA requires internal audit to operate in accordance with prescribed norms and standards. This would imply that Internal Audit Activity should apply the Standards for the Professional Practice of Internal Audit (SPPIA) in the execution of its functions.

The purpose of the Standards is to:

- ✚ Delineate basic principles that represent the practice of internal auditing
- ✚ Provide a framework for performing and promoting a broad range of value-added internal auditing
- ✚ Establish the basis for the evaluation of internal audit performance
- ✚ Foster improved organisational process and operations

8.5.1. Audit Committee and Performance Audit Committee

The Municipality established Audit and Performance Committee. The Audit and Performance Audit Committee (APAC) is a committee of Council primarily reputable to provide independent specialist advice on financial performance and efficiency, compliance with legislation, and performance management. A combined committee was appointed to represent both Performance Audit and Audit Committees in compliance to section 166 of MFMA no 56 of 2003 and section 14(2) of Municipal Planning and Performance Management Regulations. The Audit and Performance Audit Committee must liaise with Internal Audit in terms of Section 166(3) (a).

The Audit and Performance Audit Committee must ensure that the strategic internal audit plan is based on key areas of risk, including having regard to the institution's risk management strategy. The Committee reviews the work of Internal Audit through the internal audit reports. APAC operate in terms of approved Charter which outline the role, responsibilities, composition and operating guidelines of the committee of Collins Chabane Local Municipality and report to Council quarterly.

8.5.2. Internal Audit Policy Documents

Internal Audit Charter and Internal Audit methodology developed and approved by the Audit and Performance Committee.

8.5.3. Risk Based Internal Audit Plan

The three-year internal audit plan was developed so as to mitigate all audit risks and corrective measures thereof. It was approved by the Audit and Performance Committee. Annual internal audit plan was developed, approved and is currently being implemented. There is a plan to outsource some of the projects since the unit is not adequately resourced.

8.6. AUDIT AND PERFORMANCE COMMITTEE

The municipality has appointed 3 Audit and Performance Committee and re-advertised 2 audit committee positions particularly for Performance Management Systems and Information. The Committee is meeting on a quarterly basis. Audit and Performance Committee charter was developed and approved by Council.

8.7. EXTERNAL AUDIT

The municipality has maintained the unqualified Audit Opinion, an Audit Action Plan has been developed and it is monitored by the internal audit and management on month basis to ensure improved audit opinion.

The Audit Action Plan is Attached the on the IDP as Annexure C

All Construction Project Safety Files were assessed and approved for safety considerations during construction. 7 Injury On Duty cases were reported, compensation processes for injured employees as not yet been finalized. All qualifying employees for uniforms were issue with a Protective Clothing. The Municipality has successfully registered with COIDA.

9.6. LABOUR RELATIONS

The Municipality established a Local Labour Forum and it is functional. The forum's purpose is to create and maintain good relation between employer and the organized labour by discussing and resolving of labour matters. The Labour Forum has labour party representatives from SAMWU and IMATU. Also part of the forum is Municipal councilors and officials. The structure meets quarterly on a normal basis unless there are pressing issues to attend to that must go to council. The municipality currently have Six Cases that are being attended to. Three cases were concluded and Three cases are still in progress.

The nature of the cases under progress are as follows:

- ❖ Fraud Related Cases Two (02)
- ❖ Negligent Related Case One (01)

9.7. DISPUTES AND DISCIPLINARY ENQUIRIES CASE

9.8. PERFORMANCE MANAGEMENT SYSTEM

Chapter 6 of the Local Government: Municipal Systems Act makes provision for the establishment of the performance management system in municipalities. The establishment of the performance management system is meant to assist the municipalities to monitor, measure and evaluate its performance against its developmental targets that are set in the IDP. Performance management is a systematic process by which a municipal organisation involves elected representatives, administration and communities in improving organisational effectiveness in the accomplishment of legislative mandates and strategic imperatives. It is intended to manage and monitor service delivery progress against the identified strategic objectives and priorities in the IDP.

The Municipality developed and approved the Performance Management Framework Policy and it is currently under implementation. This is where the Service Delivery and Budget Implementation Plan (SDBIP) is developed. The development of the SDBIPs is a requirement under the Municipal Finance Management Act (MFMA) and gives effect to the Municipality's Integrated Development Plan (IDP) and annual budget.

The SDBIP is an expression of the objectives of the Municipality, in quantifiable outcomes, that will be implemented by the administration for the municipal financial year. The SDBIP includes the service delivery targets and performance indicators for each quarter that should be linked to the performance agreements of senior management.

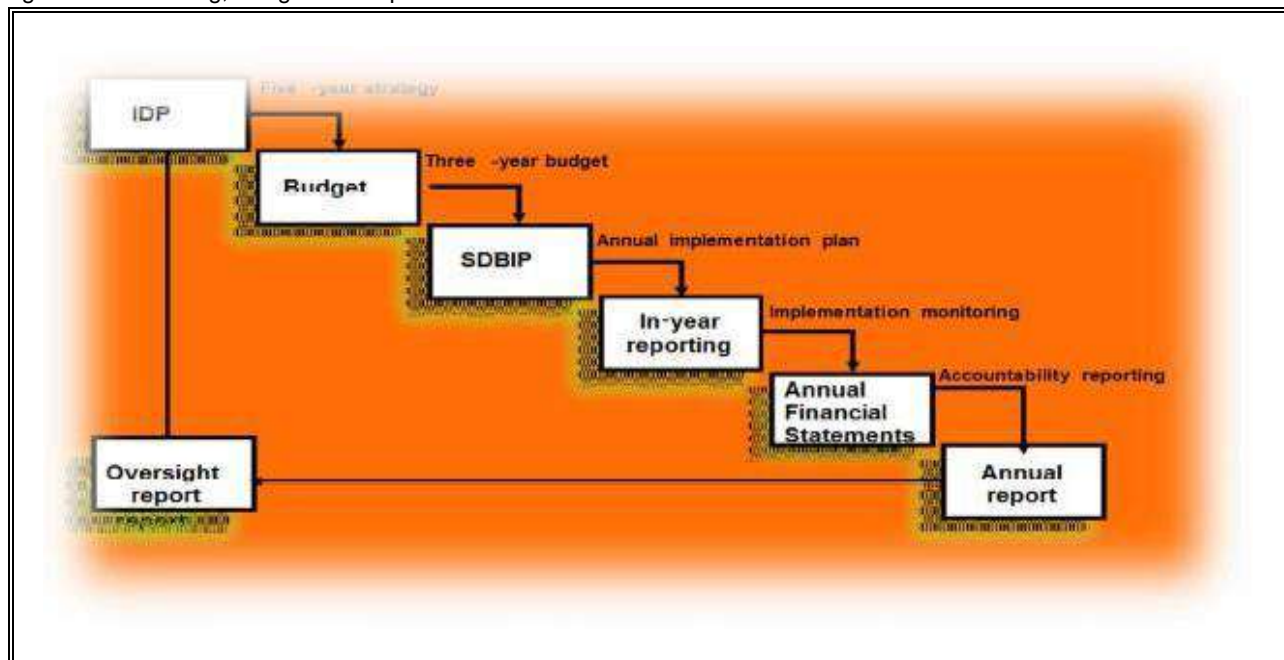

The 2021/22 SDBIP was signed by the mayor on the 22 June 2021 and submitted to COGHSTA and also uploaded on the website as per MSA 32 of 2000. All senior Managers has signed Performance Agreements for 2021/22 Financial Year and Performance Agreements were uploaded on the website and submitted to COGHSTA. The Municipality is currently implementing PMS at organizational level inclusive of Senior Management and managers and it will be cascaded down to all employees in phases.

The automated PMS system has been procured and employees are currently undergoing training for going live with the system. Performance management report are being submitted on quarterly basis and uploaded on the website. Audit and Performance committee is established and management submitting performance reports to the committee on quarterly basis.

9.8.1. Linking Planning, Budgeting, Implementation

The IDP implementation process links Budget and the SDBIP. Below is the process flow that links Planning, Budgeting and SDBIP.

Figure 9.2.: Planning, Budget and Implementation

9.8.2. Cascading of Performance Management System to Lower Levels

The Municipality is currently implementing Performance Management System at both organizational level inclusive of Senior Management and levels below Senior Managers and also the Individual Performance Assessment for all employees is being implemented.

9.9. SWITCHBOARD OPERATION

The switchboard is based on the DCO Office only. It does not control lines in the traffic and Civic Centre. There is a need to create telephone lines in the Civic Centre.

9.10. LEGAL SERVICES

Collins Chabane Local Municipality has established a Legal Services Unit/Division to render legal advice. Empirical evidence of constraints confronting the Municipality from its Legal Services Unit/Division include persistent litigation with cost implications. Such litigation has as its chief causal factors, among others, the following:

The revolution of rising expectations on the part of inhabitants of the jurisdictional area of the Municipality – cases in point being expectations by many people to be appointed as employees of the Municipality and often followed by institution of legal proceedings by unsuccessful job applicants; and

The increasing litigiousness of a significant portion of the population within and outside the jurisdictional area of the Municipality. Imperatives of neo-constitutionalism have since turned most South Africans nationwide to be adept at converting any issue into legal issues for adjudication by the courts.

9.11. MUNICIPAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT CHALLENGES

Table 9.13.: Municipal transformation and organisational development challenges

The Individual Performance Reviews for Section 54/56v not yet conducted

SECTION B: STRATEGIC PHASE

CHAPTER 10: STRATEGIES

10.1. BACKGROUND

Collins Chabane Local Municipality held its Strategic Planning Session from the **07-09 December 2023**. Stakeholders that constituted the session ranged from Traditional Leaders, Portfolio Head, Municipal Manager, Senior Managers, Managers, Sector Departments and officials to discuss on the future development direction.

The purpose of the Strategic Planning was to highlight on the Situational and Needs Analysis for Collins Chabane Local Municipality and come up with strategies to ensure service delivery and the prioritisation of services to address community needs within the jurisdiction of the Collins Chabane Local Municipality.

Collins Chabane Local Municipality's vision, mission statement and strategies were received and no changes were made. These are still to fulfil objectives of service delivery through the Integrated Development Planning. Strategies were developed on how to address all the needs of the Communities, by prioritising them and came up with projects. The Municipal SWOT analysis was reviewed to project the status quo of the Municipality.
